

# Denikin's Army is Sweeping Over Russia; Trotzky Near Capture.

## AMERICA HUMORS MEXICO AS HORRORS MULTIPLY.

### United States Citizen Murdered, Wife Outraged Among Other Crimes, but Bland Amity Continues.

WASHINGTON, July 2.—A new series of Mexican horrors, including the murder of one American and the outraging of his wife, was divulged today, in grim contrast with other disclosures of the aid being given by the administration to Carranza, particularly in replenishing his supplies of ammunition.

Incidentally, a particularly illuminating concrete example of the manner in which the administration suppresses information concerning Mexican outrages on Americans and endeavors to camouflage the situation and divert public attention to optimistic trivialities is furnished.

Acting Secretary of State Phillips, in discussing Mexico, held forth enthusiastically on the topic of the celebration of conclusion of peace at Monterey last Sunday, in which Mexicans joined the Americans in singing the "Star Spangled Banner." Mr. Phillips had taken breath for another phantasmagorical flight when a rude, vulgar newspaper correspondent inquired whether it is true that, about the time of this remarkable demonstration of Mexican affection for Americans and in the same neighborhood, John W. Correll, an American citizen, had been murdered by Mexicans, his wife outraged and his son brutally treated.

Mr. Phillips admitted that some such occurrence had been reported to the State Department about a fortnight ago.

The acting Secretary was reluctant to go into details concerning these outrages; in fact, he professed considerable ignorance of the trifle. Apparently he was about to resume his discussion of Mexican-American amities when the same rude correspondent inquired if it also were true that, June 22, the Gulf Refining Company, an American corporation in the same neighborhood, was robbed of \$15,000 and that on the following day another American oil company, the National, was raided and robbed.

ISSUES STATEMENT.

Mr. Phillips said he believed some such reports had been made to the department, but he could not remember the details of such unfortunate occurrences. He terminated the interview on the Mexican question and hastened away to issue his statement on the Monterey celebration.

After meditating during the day on the inexplicable disclosure of information which the department denied, and on the conclusion that it would be well to issue a statement on the Monterey celebration, report had it that Carranza's soldiers had swooped down on the Correll ranch, dragged Correll away and murdered him and his son into insensibility and outrage his wife. The impression left Carranza's soldiers admitted these horrors Mr. Phillips sought to correct in the following statement issued at the close of the day:

"The Department of State has received a dispatch from Tampico reporting that John W. Correll whose home is near Colonia, twenty-seven miles north of Tampico, was murdered on June 16, while defending an attack on his wife by members of a rebel force operating in that vicinity. The dispatch says that after the murder of Correll, Mrs. Correll was maltreated and left in very serious condition.

"The rebel forces of whom the assailants of Mr. and Mrs. Correll were part, consisted of about fifty men who raided Altamira June 16.

"Both the American Embassy at Mexico City and the American consulate at Tampico made urgent and immediate representations to the Mexican authorities to capture and punish the perpetrators of this outrage and to take adequate measures to protect American citizens in this vicinity.

"The Department of State denied as absolutely untrue a report published in the New York World that the Corrells had been murdered."

## BRITISH AIRSHIP DUE TOMORROW.

### Dirigible R-34 Making Thirty Knots an Hour 2000 Feet Above Atlantic; Get-Away is Made Amid Cheers; Arrangements Complete for Reception.

(BY CABLE AND ASSOCIATED PRESS.)

LONDON, July 2.—The Air Ministry has received a report from Commander Scott that at 20:15 Greenwich mean time (4:15 p.m. New York time,) the dirigible R-34 was flying westward at thirty knots, 2000 feet above the sea.

At this height the R-34 was above the clouds and enjoying brilliant sunshine. Commander Scott expects to arrive Friday morning.

FORTUNE (Scotland) July 2.—(Exclusive Cable.) The first trans-Atlantic air liner sailed on schedule time this morning when the British rigid airship R-34 left here for Mineola, Long Island, with government and private mail. There were no passengers, but two officers aboard are not regular members of the ship's crew. These are Lieutenant-Commander Lansdowne of the United States Navy, who commanded an airship station in France during the war and who will not return to Scotland with the vessel, and Gen. Maitland, who is crossing in his official capacity as chief of the airship branch of the Air Ministry.

"Cast-off the guys! Let go all hands!" trumpeted Maj. Scott, commander of the airship, when she was clear of her shed.

The big air liner immediately began to rise. The engine bells rang the four motors into action, the roar of the propeller blades cut the silence of the early morning, and as "Shorty," the station bugler, blew note after note, the R-34 disappeared almost immediately into the low-hanging, starless Scottish mist. In a short minute not even its navigation lights were visible.

Three hundred men and women, the latter belonging to the war-time women's auxiliary to the naval service, who had been acting as tugboats to a steamer in easing the airship out of the shed, sent up cheer after cheer. Officers of the station and a lucky few civilians who had passed to witness the departure joined the cheering.

Maj. Scott could be seen through the window of the forward gondola, which is the pilot house on the airship, directing the getaway, while later operation did not allow him leisure to return the salutes. But in his few words just before stepping aboard his ship in the shed he diplomatically refused to prophesy the end of the venture. "I am perfectly satisfied with the ship and crew," he said.

Lieutenant-Commander Lansdowne, standing behind him, took the cue not to indulge in visions of the future and said:

"I was on the R-34 when she made her recent trip to Germany and she had some bad weather. She behaved splendidly, so I am confident."

But the best evidence of the sure, yet modest, spirit in which the crew started on its momentous voyage is shown by the words of Maj. Scott as he crowded into the station library before the departure. Some one had compared his trip to that of Columbus, when Scott spoke up:

"I don't see how Columbus ever had the nerve to make his trip."

The scene as the huge craft nosed its way out of the enormous hangar shed was both impressive and spectacular. A few electric lights on the surrounding aerodrome and a few more inside made given off illuminating the cigar-shaped envelope of the airship as it was being silently hauled through the open doorway by 600 hands, obeying sharp orders from the officers in the gondolas and the ground superintendents.

STARTS AMERICANWARD.

The last aboard was Gen. Maitland, who stepped into the petrol gondola as the motors completed their final test run in the shed. The hydrogen hose pipes were cast off and the gasoline pumps completed filling the tanks. Just outside the shed the airship was protected from a bare twelve-mile breeze by an enormous fence-like windfield, and, once clear of these, it was turned until its bow pointed Americanward. Then it sped away.

Altogether, barely thirty minutes passed between the time the human tugboats began dragging it out and the second when it was seen in the distance. For the detailed commands were all completed early in the afternoon. I saw but few compelling reasons being hoisted up into the storeroom inside the envelope, fresh meat and bread, chocolate, ham, bacon, condensed milk and more jam and cheese than you see in London in a month.

The man had on their regulation flying kit early and Lieutenant-Commander Lansdowne gave a demonstration try-on of the new body harness to which the parachute will be attached in case of unpleasant eventualities.

EXPECTED TOMORROW.

(BY A. P. NIGHT WIRE.)

MINEOLA (N. Y.) July 2.—Lieut. Col. Frederick Lucas, in charge of the British Admiralty arrangements for the reception of the dirigible R-34 after its flight across the Atlantic, announced tonight that, unless unusually heavy winds or storms develop, the airship will arrive at her home in Mineola, Pa., near here at 7 o'clock this evening. She was 71 years old.

Dr. Shaw also was chairman of the Council of National Defense and recently was awarded the Distinguished Service Medal for her work during the war.

She was taken ill in Springfield, Ill., several weeks ago while on a lecture tour with former President Taft and President Lowell of Harvard University, in the interest of the League of Nations. Pneumonia developed and for two weeks she was confined to her room in a Springfield hospital. She returned to her home about the middle of June and apparently had entirely recovered. She was taken suddenly ill again yesterday with a recurrence of the disease and grew rapidly worse until the end.

No arrangements for the funeral had been made tonight.

Dr. Anna Shaw came from England to this country, an unknown pioneer girl of four years and through her own efforts eventually became the president of the National Women's Suffrage Association. In her girlhood she lived with her parents' immigrant family in a Michigan wilderness, forty miles from a postoffice and 100 miles from a railroad, starting her career as a school teacher, who walked eight miles a day and recited 14 a week. Her home was a poverty-stricken log cabin built by her father, who was compelled to leave his wife and children at the mercy of Indians and wild animals while he earned a living for them.

HAD D. D. DEGREE.

From her Michigan home, Dr. Shaw went to live with one of her married sisters in a northern town. After studying at Albion College from 1872 to 1875, she was graduated from the Boston School of Theology in 1875, paying her way through school and college by preaching and lecturing. She suffered extreme poverty during this period living in an attic in Boston. On account of her sex she was refused ordination by the New England conference and by the general conference of the Methodist Episcopal church. In the same year had the honor of being the first woman ordained by the Methodist Protestant church. In her struggles to become a minister she fought against ridicule, dissection and lack of the barest necessities.

After seven years' service as preacher to a small flock at East Dennis, Mass., Dr. Shaw resigned from the pulpit to take up the fight for temperance, for suffrage and for social purity. Her association through her preaching, with such prominent women as Mary A. Livermore and Julia Ward Howe enlarged her view of life and aroused enthusiasm for the cause of suffrage and liberty.

FRIEND OF MISS ANTHONY.

Dr. Shaw first became a lecturer for the Massachusetts Women's Suffrage Association, and from 1886 to 1892 was national superintendent of franchise. On the resignation of Dr. Shaw's most intimate friend, Miss Susan B. Anthony, in 1900, the presidency of the National Women's Suffrage Association rested between Dr. Shaw and Mrs. Carrie B. Chapman, whom Miss Anthony finally chose as her successor.

The Late Dr. Anna Howard Shaw, Famous veteran of fight of American women for equal-ballot rights.

## LEADER OF AMERICAN SUFFRAGISTS IS DEAD.

DR. ANNA HOWARD SHAW, AGED NATIONAL PRESIDENT, DIES IN PENNSYLVANIA.

PHILADELPHIA, July 2.—Dr. Anna Howard Shaw, honorary president of the National American Women's Suffrage Association, died at her home in Moylan, Pa., near here at 7 o'clock this evening. She was 71 years old.

Dr. Shaw also was chairman of the Council of National Defense and recently was awarded the Distinguished Service Medal for her work during the war.

She was taken ill in Springfield, Ill., several weeks ago while on a lecture tour with former President Taft and President Lowell of Harvard University, in the interest of the League of Nations. Pneumonia developed and for two weeks she was confined to her room in a Springfield hospital. She returned to her home about the middle of June and apparently had entirely recovered. She was taken suddenly ill again yesterday with a recurrence of the disease and grew rapidly worse until the end.

## REDS' LINE IS BROKEN.

### Bolshevik Forces in Amazing Rout.

Ninth Soviet Army Completely Annihilated, Eighth, Thirtieth Fleeing.

Fall of Tsaritsin Believed Matter of Few Days; Cosacks Join Force.

(BY CABLE—EXCLUSIVE DISPATCH.)

EKATERINODAR (South Russia) June 27.—(Delayed.) The front of Gen. Denikin's armies has now become an irregular bulge, which continues to swell out in all directions.

The Bolsheviks' Hindenburg line is broken. Systematic operations for the capture of Tsaritsin are well under way. Part of Gen. Wrangle's forces are advancing southeast along the Volga to Chornoi, by far the most important town between Tsaritsin and Astrakhan, and the force that advanced across the dreary Astrakhan steppes has reached the Volga not far north of Astrakhan town. The fate of the Bolsheviks on the lower Volga is sealed.

The insurgent Cosacks of the Upper Don now are wholly absorbed in Denikin's front, and beyond their line again the Cosacks of the Rostov district in the extreme northeast of the Don territory have joined in their turn and will soon coalesce with their fellows.

To the northwest and west of their districts the rout is unexampled. At a distance of 300 miles the day there was a block of 119 trains, consisting of 8000 wagons containing Red troops in full retreat. Anti-Bolsheviks attacked the trains and disarmed many of the soldiers.

Last week 270 of Denikin's men forced the passage of the Northern Donets (span 5000 ft. of the strait). The Bolsheviks' morale is completely smashed by the appearance of the British tanks, of Russian soldiers in British uniform and by the stimulating propaganda of Denikin's liberal proclamations. The spell of Trotsky's shrinking propaganda is broken.

The late Emperor's train, in which Trotsky travels, barely escaped capture by Cosacks when they seized Lysium last week.

The Ninth Soviet Army has been annihilated, and the Eighth and Thirtieth are in full retreat. Wherever possible Trotsky's "militant peasant" stream over completely into Denikin's lines, where they are well treated, and in most cases are training to fight, and fight very well, in the Russian army against Bolshevism.

## BERKELEY ELECTED BISHOP COADJUTOR.

(BY A. P. NIGHT WIRE.)

SAN FRANCISCO, July 2.—The Rev. Edward L. Parsons, rector of St. Mark's Parish, Berkeley, was elected bishop coadjutor of the Episcopal diocese of California at a convention of delegates from all sections of the diocese here today.

Rev. Parsons won in each of the three ballots taken. Others nominated included: The Right Rev. Bishop St. George Tucker, Kyoto, Japan; the Rev. William L. Manning, rector of Trinity Church, New York; the Rev. George Craig Stewart, Evanston, Ill.; the Rev. James E. Freeman, Minneapolis; the Rev. Walter Cambridge, San Mateo, Cal.; the Right Rev. Nathaniel S. Thomas, Bishop, Wyoming; and the Rev. A. W. N. Porter, of San Jose.

Dr. Parsons will not assume his new duties until after next October, it was said.

## BULLETINS.

(BY A. P. NIGHT WIRE.)

RICHMOND (Va.) July 2.—A Seaboard Airline passenger train which left Richmond for Washington at 7 o'clock tonight was wrecked near Milford, thirty-eight miles north of Washington. Details are meager, railway officials reporting wires down. Doctors have been sent to the wreck.

## ROAD CONSTRUCTION IS FRANCE'S FIRST JOB.

(BY CABLE AND ASSOCIATED PRESS.)

PARIS, July 2.—M. Bedouce told the chamber today the public works budget for the current year amounted to 1,600,000,000 francs, as compared with 300,000,000 in 1914. One hundred and seventy-six million francs have been allotted for road repairs in the invaded regions, which will have the government's first attention. The entire road reconstruction programme will cost nearly 2,000,000 francs, he said.

Albert Clavelle, Minister of Public Works, told the chamber that all the railways of Alsace-Lorraine, except one, are in working order.

## U.S. ARMY QUITS GERMANY.

### Occupation Technically Ends with Removal of Units Still in Rhineland.

(BY CABLE AND ASSOCIATED PRESS.)

PARIS, July 2.—The American Army of Occupation technically ceased to exist today when the removal of the units still in the Rhineland began. It is expected that within a comparatively short time there will remain in the Rhine only one regiment, with certain auxiliary troops.

The Fourth and the Fifth divisions, entraining for Brest today, will be followed eventually by the Second, Third and First Divisions, in the order named. The exact time of departure of these latter divisions depends on the manner in which Germany carries out the military terms of the treaty.

"Our flag is there, our word is there, and our honor is there," Gen. Pershing told the correspondents today in speaking of the American army in Europe.

Until there is indisputable evidence that the job has been completed, he added, Americans will stand by to do their part.

Gen. Pershing said all troops will be returned to the United States through France, most of them sailing from Brest. His grand headquarters at Chaumont will be closed within a fortnight and he will establish his headquarters here, remaining until the end of August or first part of September. He said rapid progress is being made in disposing of the army's effects.

## ITALIAN MOBS LOOT SHOPS.

(BY CABLE AND ASSOCIATED PRESS.)

FORLI (Italy) July 2.—After a great meeting here yesterday, in which a vast crowd protested against the high cost of living, the people, excited by inflammatory speeches, attacked, sacked and destroyed many shops which refused to sell commodities at lower prices.

The fury of the mob made no distinction and had no limits. All the principal shops were plundered, and the mobs controlled the entire city. They took possession of lorries and transported all kinds of goods and food supplies from the pillaged shops to the Chamber of Labor. On the walls of this chamber they wrote: "These goods are for the disposal of the people."

The situation grew worse during the day, assuming a revolutionary character, and the mob continued to loot and destroy all kinds of property.

The food riots here, however, differ fundamentally from those at Spezia early in June. At Spezia the rioters looted for their own advantage, while at Forli most of what was taken from the shops was transferred to the care of the municipality or the Chamber of Labor, to be distributed to the people or sold at low prices.

The value of the goods stored by the municipality was estimated at 3,000,000 lire. The proprietors of those shops which escaped sacking brought their keys to the municipality, which is composed of Socialists and Republicans, and they ordered that the shops be reopened and the food sold for half price, under the supervision of representatives of the municipality.

Despite this apparent return to order in the riotous movement, the losses are enormous, owing to the destruction of shop fittings and commodities which could not be easily transported, such as gasoline, which was burned in great quantities.

## SOUTHERN CHINA MENACED.

(BY A. P. NIGHT WIRE.)

WASHINGTON, July 2.—Southern China, which heretofore has presented a united front in its resistance of the northern element now in control at Peking, was reported today to be in danger of disruption as the result of the clashing ambitions of the two great southern generals.

Actual hostilities between the two which already have broken out are calculated to seriously affect the solidarity of South China.

The northern element at Peking, so disconcerted by the failure of the Shanghai conference to compromise the factional fight which has prevailed in the past two years, is preserving an attitude of neutrality.

The financial conditions in China are reported in latest official dispatches to be very bad and without hope of immediate relief owing to the failure of the British and French governments to follow the example of America in ratifying the arrangement with the five powers of group of bankers for the extension of relief to China.

## SAYS WE MUST TRUST MEXICO.

(BY A. P. NIGHT WIRE.)

NEW YORK, July 2.—On the eve of sailing for France, Gen. Candido Aguilar, non-in-law and personal representative of President Carranza of Mexico, declared tonight that differences between the United States and Mexico would be settled amicably if the American people would trust in the "good faith" of the Mexican government, would not magnify and give undue credence to "every tale of violence that purports to come out of Mexico" and would uphold the new officials in Washington in their efforts to "smooth out difficulties."

"The Mexican government," he said, "has no desire to confiscate property of mine owners. We are not so simple-minded or unreasonable as to suppose that any good could come from such a policy." We are, rather, looking towards a taxation system that will be fair and equal to all, whether they be Mexican or American.

"We feel that the great natural resources belong to the people, but we have no desire to and shall not disturb the private owner as long as he works the resources. He is the legal owner."

## THE DAY'S NEWS SUMMED UP.

THE SKY. Clear. Wind at 5 m.p.h., southwest; velocity, nine miles. Thermometer, highest, 86 deg.; lowest, 67 deg. Forecast: For Los Angeles and vicinity, Thursday fair, slightly cloudy near the coast in the morning. For complete weather data see last page of this section.

THE CITY. Holding that Mrs. Thomas Hughes' sensational newspaper trial case was inadequate the court handed her \$350,000 action against the millionaire politician.

Ordinance was introduced in the Council to stop the misuse of the uniform by profiteers. It will be adopted next Wednesday.

Phone strikes at Long Beach and San Bernardino were ended with victories for the open shop; alleged wire-tapper was arrested on a Federal warrant.

Gunman and woman trailed detective who are investigating the real motive for the murder of a Vernon deputy marshal and the officers were threatened with death.

Odd mix-up occurred over daughter of a slain Mexican judge and was accused of kidnapping her; when officers arrived at the ranch of their employer, Capt. Fredericks, said the pair are married, but had fled.

Los Angeles railway heads will take no action before the strike is announced; early settlement of the shipyard trouble was indicated.

SOUTHERN CALIFORNIA. News of old Spanish days feature of Santa Barbara fiesta.

Early end to phone strike is seen in message from Senator Phelps to

Archie J. Ely, the city host, will make its maiden voyage, after many months in the installation of its new members of the City of retiring will actually have opportunity to make a trip before they go back to ship. They have been guests on the trip and unanimously accepted the

# Germany Organizing Army of Million Men Beside Peace Terms.

## HUN TRADE IS BIG QUESTION.

Opinions Differ as to Time of Resuming Commerce.

Palmer Says Senate Ratification Must Come First.

Knox is for Indorsement by Three Powers.

WASHINGTON, July 7.—With the peace treaty signed and the German blockade about to be lifted, wide differences of opinion have arisen among administration officials and international authorities as to just when the United States can resume commercial relations with Germany.

The point is of the utmost interest to business and shipping interests, and it is expected that American commerce may have the same advantages as British, French and Italian commerce in the German markets.

In the absence of their statutory limitations, war measures effective until the end of the war will continue in operation until the exchange of ratifications of the treaty of peace between this country and its allies. This interpretation of several much disputed phrases was given by Attorney General Palmer today as the accepted meaning of the termination of hostilities and the one as which administration officials would proceed.

UP TO PRESIDENT.

The Trading with the Enemy Act, however, is to remain in force until the date of the proclamation of the exchange of the ratification of peace treaties, but the President may decide a prior date if he sees fit. In the opinion of the Department of Justice, the earlier date may not be set before the end of the war, that is, the date when the ratification of the peace treaty is completed, the qualifying clause being interpreted to mean only that the President need not wait for the ratification of the peace treaty.

"Duration of the emergency," one of the phrases used in war commissions in the army and navy, has not been interpreted by the Department of Justice officials and Mr. Palmer declined to hazard an off-hand opinion.

Demobilization, the Attorney General said, would be completed when the army was reduced to a peace basis, not necessarily the basis existing before the war, but authorized by Congress for the future. The war-time prohibition law is effective until President Wilson provides demobilization completed, provided the war is over.

STATEMENT BY KNOX.

Senator Knox of Pennsylvania, Secretary of State, declared today that the United States will resume trade with Germany under the provisions of the treaty, immediately after the deposit of ratifications by Germany and three of the principal Allied powers.

"The treaty itself provides," said Senator Knox, "that the United States shall resume trade with Germany under the provisions of the treaty, immediately after the deposit of ratifications by Germany and three of the principal Allied powers."

LEAGUE AND TRADE.

The controversy over the resumption of trade with Germany has been continued today by the resumption of the hearing on the League of Nations bill in the Senate and the outcome of the dispute is awaited with keen interest on both sides.

The friends of the league have been counting on much pressure from business men for the immediate and unqualified ratification of the treaty on the ground that delay would seriously handicap American trade.

The war-time prohibition question also is involved. If the President should declare that the resumption of trade with Germany cannot be resumed because the war will not be formally concluded until the ratification of the treaty by the Senate, the resumption of trade with Germany would be prohibited until that time. If, prior to that time, the President should declare that the resumption of trade with Germany is permitted, the resumption of trade would be permitted.

NEBRASKA CODE REFERENDUM SURE.

LINCOLN, July 7.—Thirty thousand signatures, one-third more than the law requires, have been secured to referendum petitions on the administrative code bill passed by the last session of the Nebraska Legislature which provides for reorganization of state government. It was announced today by Secretary A. D. Scott of the referendum bureau.

With False Teeth?

SURE

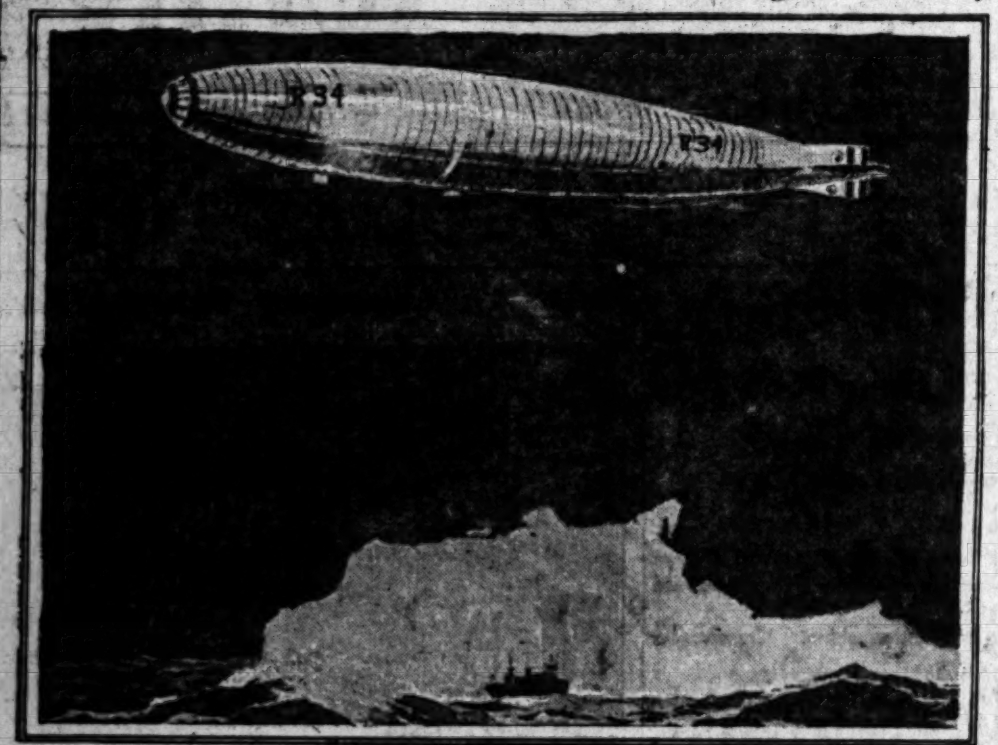

Dr. Wernet's

Powder

## The R-34 Does not Have to Look Out for Icebergs on the Way.

## HUNS CONTINUE WAR ACTIVITIES

No Let-up in Production of Military Equipment.

Surrendered Airplanes Replaced, Pilots Trained.

Manufacture of Munitions Almost Equals Loss.

BY A STAFF CORRESPONDENT.

(BY CABLE AND ASSOCIATED PRESS.)

COBLENZ, July 7.—During the seven months between the armistice and peace there has been no let-up in Germany in the production of cannon, rifles, airplanes and other war equipment. The manufacture of munitions has been so large that today Germany has in part replaced the artillery she lost during the last two months of the war and that that was turned over after the armistice.

Germany has replaced the airplanes which she surrendered and has trained pilots to operate them.

There is sufficient equipment for 3,000,000 soldiers.

The treaty limits the German army to 100,000 men. The German army today boasts of the following numbers of the Reichswehr:

Gruppenkommande 1, about 80,000.

Gruppenkommande 2 and 3, 200,000.

Gruppenkommande 4, 30,000.

In the old corps districts, 75,000.

Total Reichswehr, 225,000.

Miscellaneous, freiwillingers, 25,000.

Total available troops, 410,000.

Remnants of the old army, 25,000.

Home guards, 100,000.

The Home Guards are developing into an organization similar to the National Guards in the United States. Their total number will be much larger than 100,000 before October 1.

These figures, which are official, do not take into consideration 100,000 German soldiers whose status as prisoners of the Allies soon will be important.

FORMIDABLE FORCE.

The world at large has heard little of the reorganization of the German army, but perhaps an idea of the force which is being built up can be gained from the fact that the French will tell you one not only exists but is growing lustily.

At the time of the armistice, the German army numbered five years ago and brought the catastrophe to the world and itself, perhaps it is interesting to know what German military has been doing since November 11. Following the armistice, demobilization of the old army began. This was completed in April. At this writing only a part of the active officers remain with the colors, the rest having been in compulsory service.

However, each old army unit has a few officers and men who are employed closing up the paper work.

A few old army men are in the hospitals, otherwise only volunteers are with the colors.

In December, 1918, it was clear the old army units were useless for further service, even against the Spartacists within Germany. Enterprising officers began organizing volunteer units, all of which were placed on the army pay roll, but most of them remained independent of the authority of the War Ministry. Every officer exercised his own judgment in organizing a unit and gave it any name he chose. These units, though highly successful, were also expensive and lacked cohesion despite the fact they volunteered and began to combine with larger units.

NOSKE GUARDS.

The troops organized in this manner were called Freiwiliger troops and by April they numbered 200,000 men. These were the so-called Noske guards, which maintained the Ebert-Scheidemann government until the spring. All Freiwiliger units were to be dissolved or absorbed into the Reichswehr in July. The time has been short for fulfillment of Noske's order, but early disappearance of the troops appears certain.

The war ministry recommended a new law which would place on a systematic basis. The national assembly gave Noske authority to proceed. The next way was to cut this out and take it with you as to make sure of getting Chamberlain's Tablets. You will find nothing quite so satisfactory for constipation and indigestion.—Advertisement.

Cut this Out and Take it with You.

A man often forgets the exact name of the article he wishes to purchase, and as a last resort takes something else instead. That is always disappointing and unsatisfactory. The next way is to cut this out and take it with you as to make sure of getting Chamberlain's Tablets. You will find nothing quite so satisfactory for constipation and indigestion.—Advertisement.

WASHINGTON ADVISOR.

(BY A. R. DAY WIRE.)

ST. JOHN'S (N. F.) July 7.—Rain, fog and northwesterly gale today retarded the start of the transatlantic flight of Rear Admiral Mark Kerr in his Handley-Page machine.

TO CROSS ATLANTIC IN HALF-DAY SOON?

(Continued from First Page.)

eral motors to drive one large propeller he said.

"Regarding the radio, the results obtained by the radio officer on the NC-4 undoubtedly prove the feasibility of the project. He sent messages over 700 miles. He heard Boston talking over 1000 nautical miles. He copied a long message sent from the George Washington when approaching Brest, France, from 1175 miles away. He heard stations calling other stations 1300 miles away. When you consider the requirements of a radio installation on our comparatively small seaplane, it is really a marvelous performance."

The radio compass also proved itself of the greatest value.

Before starting on the flight preliminary experiments at Rockaway apparently indicated that not much dependency could be placed on the radio compass. In a test flight which I had made in another type of seaplane, the results obtained were unsatisfactory. In fact, I placed no dependency on the installation when starting on the flight. Over to this fact I almost forgot that we had such an instrument and did not really try to use it until after leaving Ponta Delgada.

"On that trip, owing to an error in the compass, it was the radio compass that brought us back again to our line of destination before we had discovered the cause of the compass error and corrected it. The average distance at which we could communicate with the radio compass was thirty or forty miles, with the destroyers. I look to the radio compass in the future for the solution of the navigation problem of trans-Atlantic flying."

Answering his own question as to whether the results obtained from the flight were worth the expense, he asserted that "an immense amount of information concerning seaplanes and operation over the sea for long distance" had been obtained. Commander Read added he would not "try to estimate the more important results of the installation to the navy and to the country."

OCEAN GREATLY SHRUNK.

"My general impression of the trans-Atlantic flight was to the effect that the Atlantic Ocean had been shrunk in size," he said in closing. "That was a real impression for no matter how much we may sit down at a table and discuss the matter, the results of the flight are not really brought home to us what an enormous saving in time is effected by flying in the way that we have taken. The ocean until we actually try to do it."

"It is evident to me that one of the most important results of the flying act is to embark on an intensive campaign of education. When people realize the things which we flyers realize and those people who have studied the question in the past, then they will get behind the proposition in the way that the British always have been behind the proposition of creating a large and powerful navy, and are now behind the proposition of creating a large and enormous air force."

Commander Read expressed confidence that Capt. Roy N. Francis, army aviator, would be successful in his proposed trans-continental flight, and asserted that, from his own experience, he was convinced Capt. Francis could have selected the shortest route than the Liberty, constructed under stress of war.

After paying tribute to the American people, Commander Read said that Harry S. New of Indiana, another speaker, expressed confidence in the development of aviation, both in war and in peace.

NEXT WAR IN AIR.

"I believe that the next war—if there shall be another war and our vaunted League of Nations will be shown to have not absolutely done away with this—will be fought by the two forces of the air—aircraft and chemical warfare," he said.

"But I am not going to treat of air warfare, but of the air force. Less than sixty days ago the president of one of the great railroad lines of this country said to me most emphatically that the railroad must prepare themselves for a material decrease in revenue, along with the decrease in the use of express and lighter freights and to some extent at least, passenger traffic. The use of aircraft, I think, perhaps my railroad friend is unduly apprehensive; personally I think not."

Senator New asserted the belief that "it is going to be necessary for the United States to have a department of aeronautics."

"We all know that Great Britain, France and Italy today are proselytizing in South America for the use of aircraft. Their agents are there. There is scarcely a country in South America that does not hold them in high esteem. We should send similar commissions there and we should have something here for those commissioners to represent."

"It is of no use for them to go there to sell airplanes which we cannot manufacture. We should organize ourselves to engage seriously and successfully in this great enterprise."

Acces of the world war and distinguished guests from the army and navy were among those present to honor Commander Read at the conference at Paris today.

Leaders in the old regime predicted the outbreak of new wars due to the situation found in the Peace Conference much uneasiness. Reports received here indicate that there have been organized in Asiatic Turkey three Turkish armies whose generals refuse to obey orders from Constantinople.

At the position of Constantinople has been much weakened by the refusal of the conference to consider proposals from the Turkish delegates immediately. It is feared that independent movements will develop throughout Asia Minor.

BLOCKADE CHIEF WORRY.

(BY CABLE AND ASSOCIATED PRESS.)

VIENNA, Sunday, June 29.—News regarding the prospects of peace has not made any special impression upon the people of the republics formed from the former dual monarchy, because of their own myriad difficulties. But one development of the situation found in the improvement of exchange rates. It is the general feeling that the Central Empires have suffered more through the blockade, uncertainty and internal disorders during the protracted conference at Paris than in any year of the war.

CAN MAN BE OWN SON'S GRANDDAD?

(EXCLUSIVE DISPATCH.)

NEW YORK, July 2.—Can a man be his own child's grandfather?

Yes, a woman be her own child's sister-in-law?

If a father-in-law and a daughter in law marry, how is anybody to keep track of the multiplicity of relations?

As a start toward puzzling possibilities, Fred Schmidt, 60 years old, of Hasbrouck Heights, N. J., and his daughter-in-law, Emma Schomberg, 22, of New York, today prepared a marriage license.

Fred's wife died January 15, 1917. Emma's husband, son of the prospective bridegroom, died December 30, 1916.

eral motors to drive one large propeller he said.

"Regarding the radio, the results obtained by the radio officer on the NC-4 undoubtedly prove the feasibility of the project. He sent messages over 700 miles. He heard Boston talking over 1000 nautical miles. He copied a long message sent from the George Washington when approaching Brest, France, from 1175 miles away. He heard stations calling other stations 1300 miles away. When you consider the requirements of a radio installation on our comparatively small seaplane, it is really a marvelous performance."

The radio compass also proved itself of the greatest value.

Before starting on the flight preliminary experiments at Rockaway apparently indicated that not much dependency could be placed on the radio compass. In a test flight which I had made in another type of seaplane, the results obtained were unsatisfactory. In fact, I placed no dependency on the installation when starting on the flight. Over to this fact I almost forgot that we had such an instrument and did not really try to use it until after leaving Ponta Delgada.

"On that trip, owing to an error in the compass, it was the radio compass that brought us back again to our line of destination before we had discovered the cause of the compass error and corrected it. The average distance at which we could communicate with the radio compass was thirty or forty miles, with the destroyers. I look to the radio compass in the future for the solution of the navigation problem of trans-Atlantic flying."

Answering his own question as to whether the results obtained from the flight were worth the expense, he asserted that "an immense amount of information concerning seaplanes and operation over the sea for long distance" had been obtained. ## TELEGRAPHERS STRIKE IS OFF

Konenkamp Admits Union Defeat; to Reorganize.

Companies to Take Back Few Former Employees.

Local Men Seek Old Jobs but Many Lose Out.

(BY A. P. NIGHT WIRE.)

NEW YORK, July 2.—The strike of the Commercial Telegraphers' Union against the Western Union and Postal Telegraph companies was declared off this afternoon, it was announced here by Percy Thomas, deputy international president of the organization.

Edward Reynolds, vice-president and general manager of the Postal company, announced after he was informed that the strike had been called off that those strikers who wished to return to work could do so "though they had to risk finding their places filled."

At the offices of the Western Union it was said that men wishing reinstatement would have their claims passed upon by a committee of employees.

KONENKAMP CALLS IT OFF.

CHICAGO, July 2.—The strike of telegraphers, which began June 11, was called off at noon today by S. J. Konenkamp, president of the Commercial Telegraphers' Union of America. President Konenkamp, who returned from Washington this morning, called off the strike after he had conferred with other officials of the union.

It was announced that a meeting of the Executive Committee of the organization would be called in a few days to consider plans of reorganization.

BAY REGION VOTES RETURN.

(BY A. P. NIGHT WIRE.)

SAN FRANCISCO, July 2.—Delegates representing commercial telegraphers in the San Francisco Bay region, who have been on strike three weeks, at a meeting here late today voted to comply with orders issued by their national officers and return to work at once.

P. C. O'Connor, president of the District Council, Commercial Telegraphers' Union of America, said that twenty-three of twenty-seven delegates who attended the meeting voted to return to their jobs. He said the organization has a membership of 132 in the bay region, and that he expected those men, and others who were not identified with the union, but who went on strike, to be at work immediately.

With the calling off of the nation-wide strike of the Commercial Telegraphers' Union by its president, S. J. Konenkamp, yesterday, local key men who blindly followed the dictates of union leaders and walked out of the local offices, came to a realization that they have suffered a serious loss because of their affiliation with the telegraphers' union.

The Western Union Telegraph Company lost only four telegraphers here while the strike was in progress, and three and one-half weeks. The Postal Telegraph and Cable Company lost in the neighborhood of fifty representatives of the company, and practically all these men now find themselves out of employment.

Postmaster-General Burleson, after warning the strikers to return to work within a given length of time, notified the companies some days ago that they would not be required to re-employ strikers. Frank S. Feil, local manager of the Postal company, said yesterday that his company would take back only such

It took JACK MULL-HALL just exactly four years to find his hat. And he found it at WOOLF & BEAN'S Hotel Alexandria Shop. Jack says so himself and he is a truthful young man. He plays opposite Peggy Hyland at the Fox Studio. Jack said that he had looked all over these dry states for a hat that would suit his style of manly beauty. To say that JACK is pleased with his new WOOLF & BEAN'S lid is not half of it—he is tickled to death. Lots of the boys have discovered at WOOLF & BEAN'S Hotel Alexandria Shop the shirts, hats, ties, socks, etc. that have ordinary dudes tied to the mast. Yours are there too.

Billie + Jack

of the strikers as it needed to fill vacancies. "We are working practically a full force now," said he, "and the company intends to take care of the men who helped it break the strike. Many of the striking operators hurried back today and asked for their old jobs, declaring they had been tried, hoodwinked and imposed upon. But we can only re-employ a few to fill vacancies, and those few will be the pick of the bunch. All strikers returning to work start over again as new men with the company, having lost their seniority and their right to a vacation this year."

The Western Union company filled the places vacated by four union men as soon as the strike began, and it now has no vacancies to fill, and no men to take back. In his order calling off the strike which he declared three weeks ago, Konenkamp said: "The combined forces were too strong for us."

LEADER OF AMERICAN SUFFRAGISTS IS DEAD.

(Continued from First Page.)

the more experienced while Dr. Shaw was made vice-president-at-large. However, in 1904 Mrs. Chapman was compelled to resign on account of ill health, and Dr. Shaw succeeded her as president of the national association from 1904 to 1915.

Her administration was marked by unprecedented progress. The number of suffrage workers increased from 1,000 to 100,000; one campaign in ten years was replaced by ten in one year; the expenditures of the association increased from \$15,000 to \$500,000; the number of States with full suffrage grew from four to twelve while the whole suffrage movement changed from an academic stage to a vital political force arousing the attention of the entire nation.

The year 1912 was the banner year for Dr. Shaw and the cause, when Arizona, Kansas and Oregon received full suffrage. During this year Dr. Shaw spoke in the principal cities in each of these States making four or five speeches a day and traveling in any sort of a conveyance from freight cars to automobiles.

WAS COURAGEOUS.

Many times during her earlier career, Dr. Shaw gave proof of her courageous and determined nature. On one occasion the free religious group of which she was pastor, wished to give a dance on the night of the annual church fair, and the intrepid little preacher was obliged to threaten the whole congregation with arrest to maintain her authority.

As a country school-teacher, she preached her first sermon at the suggestion of a friend, rehearsing it to the trees and stones in advance. When Dr. Shaw reached the point where she had not a cent of money, not the prospect of earning any. Unexpectedly she was asked to preach at a church and she decided that if this brought her enough money for a cheap pair of shoes and a few days' food, she would continue her course in theology.

A shiftless woodman was once conducting her through a northern forest to a town where she was to preach and refused to drive further, whereon the girl pulled out a small revolver and held it at his back until she reached her destination. Dr. Shaw was born at Newcastle-on-Tyne, England, February 14, 1847. She was never married.

CREDIT OF \$20,000,000 FOR DRIED FRUIT MEN.

SYNDICATE OF PROMINENT BANKS IS BEING FORMED TO EXTEND ACCEPTANCE.

(EXCLUSIVE DISPATCH.)

WASHINGTON, July 2.—Confirmation is given here to the statement that a credit aggregating \$20,000,000 has been arranged in New York for the apple, raisin, walnut, and other dried fruit and nut producers of California. According to the information received here this is the first time that local banks of California have ever been relieved from handling this crop movement and means virtually the addition of \$20,000,000 of new funds in California.

A syndicate of prominent banks and banking concerns throughout the United States is being formed to extend acceptance credits which may run as high as \$20,000,000 to finance the California dried fruit crop. The banking firm of Bernhard Schotte & Co. of New York, is negotiating the credit. The syndicate is represented on the coast by the Bank of Italy.

The final consummation of this financing has been held up for some time awaiting among other matters decision by the Federal Reserve Board as to the eligibility of the acceptances, to be drawn under these credits for purchase by the Federal reserve banks. The principal was raised whether the transaction would comply with requirements of the Federal Reserve Board regarding readily marketable staples. Approval has now been given by the Federal Reserve Board to the transaction.

Thus far a credit of \$4,000,000 has been from the California Prune and Apricot Association, and a credit of \$2,000,000 to the California Raisin Growers Association. Further credits are pending covering other California fruit products such as dried cherries, figs, walnuts, etc., and when the financing is completed, it is said the bills drawn under these credits may reach \$20,000,000, and upwards. The purpose of these credits is to arrange for the storage and marketing of the various crops. The credit will be a revolving one, bills being drawn for thirty, sixty and ninety days periods, commencing July 1, and running up to the spring of 1921.

This bill is the first time the western fruit crop has been handled through the credit medium of bank acceptances, as heretofore the crops have been moved with the assistance of straight bank loans.

MONTENEGRINS REBEL AGAINST SERBIAN RULE.

(BY CABLE AND ASSOCIATED PRESS.) BERNE (Switzerland) Tuesday, July 1.—Virtually all of Montenegro is in rebellion against the Serbian military occupation, according to private advices received here. Bloody encounters, it is said, have occurred at many places and guerrilla warfare is reviving in the mountains.

## LOSE LIQUOR TAX, RAISE WATER TAX.

(BY A. P. NIGHT WIRE.)

SANTA CRUZ, July 2.—A proposal whereby it is believed this city will be able to make up revenues lost by the enforcement of the war-time prohibition law by increasing its water rates, was made here tonight by Commissioner of Finance A. Palmer.

The anticipated loss in taxes through the ban against liquor has been estimated at \$15,000 annually. The city owns its own water system.

Palmer proposes that the city increase its water rates 50 per cent.

## WHEAT HARVESTERS RUSHED INTO KANSAS.

(BY A. P. NIGHT WIRE.)

WASHINGTON, July 2.—Emergency measures were taken today by the railroad administration to rush laborers into Kansas to help harvest the State's bumper wheat crop.

Director-General Hines instructed the Santa Fe general passenger agent in Topeka to run special trains if necessary to carry laborers into the State.

CANADIANS STRIKE FOR UNITED STATES WAGES.

(BY A. P. NIGHT WIRE.)

MONTREAL, July 2.—The garment workers' union called a strike in Canada today, demanding the same wages paid in the United States.

Two thousand members of the union responded to the strike order in Montreal.

### WILSON RESTING FOR PACT FIGHT

President Does Little Work on Message to Congress.

Tumulty Handles Plans for New York Reception.

Senate Plans Battle on League in Ratification.

[BY A. P. NIGHT WIRE.]  
ON BOARD U.S.S. GEORGE WASHINGTON, July 2.—(By Wire) President Wilson spent considerable time on the deck of the George Washington today and then resumed work on his message to Congress. He probably will address the soldiers on board the George Washington July 4.

ON BOARD THE U.S.S. GEORGE WASHINGTON, Tuesday, July 1. (By Wire) The President's voyage continues under most favorable conditions with calm seas and mild, sunny weather. Mr. Wilson has done some work on his message to Congress, in which he will submit the treaties, protocols and general results achieved at the Paris conference, but on advice of Rear-Admiral Cary T. Grayson, his physician, the President is giving considerable time to rest and recuperation, after the strenuous days he has just left behind and for those through which he soon must pass.

NEW YORK, July 2.—Plans for the reception of President Wilson on his arrival here from overseas by the steamship George Washington, probably next Monday, were under discussion here today. Joseph P. Tumulty, secretary to the President, who will be in New York with his chief arrival, will have entire supervision of all arrangements.

LEAGUE FIGHT POSTPONED.  
[BY A. P. NIGHT WIRE.]  
WASHINGTON, July 2.—With the beginning today of a week's recess of Congress, it seemed assured that Senate opponents of the League of Nations would abandon any plan for a formal Senate declaration on the subject before the fight for actual ratification of the treaty begins.

Until the recess plan was suggested, it had been the apparent purpose of opposition leaders to make an effort, as soon as the appropriation bills were passed, to bring some Senate action in advance of presentation of the treaty. For this purpose, it was said, the opposition would press the resolution of Senator Knox, Republican, Pennsylvania, to serve notice of unwillingness to accept the league covenant as an inseparable part of the treaty, and that of Senator Fall, Republican, New Mexico, to declare a state of peace with Germany.

It now is expected, however, that the treaty will be presented as soon as the recess is over and that both of these resolutions will be considered then to have outlived their usefulness. Present indications are that from now on it will be a straight fight over unqualified ratification. Although many Senators left the capital today, some of the leaders remained actively at work on plans for the ratification fight. In general the opposition lines are shaping on the basis of the ratification provisions suggested by Elihu Root, while the President's supporters were preparing for a struggle to secure acceptance of the covenant without the alteration of a single provision.

### PROGRESSIVES REVOLT AT APPROPRIATION CUT.

CUTTING OUT BUDGET SYSTEM AND EMPLOYMENT SERVICE RAISES IRE.

[EXCLUSIVE DISPATCH.]  
WASHINGTON, July 2.—Revolt has broken out in the Republican ranks in the Senate as a result of the merciless slashing of appropriations for measures favored by the Progressive faction.

Many Democrats have lined up with the Progressive Republicans. Senator Warren of Wyoming, chairman of the Senate Appropriations Committee, and Senator Smoot of Utah, who has charge of the measure, make little effort to defend their defense, beyond laying the blame on the clamor in the House for rigid economy.

Senator La Follette of Wisconsin supported Senator Kenyon's position and demanded the rejection of the conference report. He was indignant over the reduction of the employment service appropriation to \$200,000, one-half of what the Senate provided.

Senator Robinson of Arkansas, Democrat, charged that the action of the House was a direct assault on the wishes of both houses. While the House had not had an opportunity to vote directly on the employment service appropriation, it had gone on record in favor of continuing the service by an almost unanimous vote, he said.

### OBITUARY.

[BY A. P. NIGHT WIRE.]  
NEW YORK, July 2.—Lemuel Ely Quigg, former member of Congress and prominent in Republican politics in New York State for many years, died at his home here early today.

NEW YORK, July 2.—Charles K. Lipman, a prominent figure in the copper industry of the United States, died at his home here today. Mr. Lipman, who was for many years associated with the Guggenheim mining interests, was born in California in 1857. His elder brother, Fred Lipman, is a banker in San Francisco.

### GEN. ALLEN SUCCEEDS LIGGETT ON THE RHINE.

[BY CABLE AND ASSOCIATED PRESS.]  
PARIS, July 2.—Maj.-Gen. Henry T. Allen, it was announced at American military headquarters today, will succeed Lieut.-Gen. Hunter Liggett in command of the "forces on the Rhine," the new title of the Army of Occupation.

### MORE TIME FOR MOORE.

Actor Husband of Mary Pickford Fails to Appear in Court.

[LOCAL CORRESPONDENCE.]  
SANTA MONICA, July 2.—Great excitement was caused in Police Judge King's court this morning when Owen Moore, actor-husband of Mary Pickford failed to appear. Moore was arrested for speeding on Santa Monica boulevard two months ago and in spite of the fact that they wrote many letters to him, and issued another warrant for his arrest, the police until last Sunday were unable to locate their man. Sunday, Moore came to the police headquarters and explained that he had heard that he was wanted there, but had forgotten why. He said that he had received no letters from headquarters.

When he failed to appear this morning, as he has been arrested, Judge King expressed the opinion that "the hand of fate must have mixed in Moore's affairs." Moore sent word later in the morning that he was sick, but would appear tomorrow.

### BOND ELECTION.

[LOCAL CORRESPONDENCE.]  
GLENDALE, July 2.—Notice has been given that on July 24 an election will be held on the question of issuing bonds to the amount of \$100,000 for school purposes. The bonds will be held on the question of issuing bonds to the amount of \$100,000 and shall bear interest at the rate of 5 per cent. per annum, payable semiannually. For the purpose of holding the election, the Glendale school district is divided into three precincts, Acacia avenue, Central avenue, and Wilson avenue.

### Labor Invested with New Dignity.

[BY A. P. NIGHT WIRE.]  
DENVER, July 2.—The labor force of the world, as a result of the war, have been "invested with a new dignity and power," and "labor never will be held in the same subordinate position it occupied in the past," said W. P. Borland, chief of the safety division of the United States Railroad Administration, addressing the Brotherhood of Locomotive Firemen and Enginemen today.

Mr. Wisler Cured of Indigestion.  
"Some time in 1909, when I had an attack of indigestion and everything looked gloomy to me I received a free sample of Chamberlain's Tablets by mail. I gave them a trial and they were such a help to me that I bought a package and I can truthfully say that I have not had a similar attack since," writes Wm. R. Wisler, Douglassville, Pa. (Advertisement.)

### HIGHWAY BONDS ADOPTED 7 TO 1.

Every Precinct in State Votes for \$40,000,000 Issue.

Incomplete Totals Show Overwhelming Majority.

Governor Thanks People for Indorsement.

[BY A. P. NIGHT WIRE.]  
SAN FRANCISCO, July 2.—As additional returns were compiled today from yesterday's State highway bond election the ratio of votes favorable to the issue hovered at 7 to 1. No city, town or county yet reported had shown a majority adverse to issuance of \$40,000,000 in bonds to complete a road-building program that will give California 4500 miles of permanent highway.

Nevada county today reported: For, 1148; against, 82, and from the mass of returns coming in there were other counties showing the same preponderance of votes favorable to the measure. The city of Stockton's vote was: For, 1899; against, 387.

Returns when compared with registration totals, showed an extremely light vote everywhere and this was attributed to the absence of organized opposition to the pending proposal.

Totals, still incomplete, were: For, 107,317; against, 15,585. Apparently every precinct in the State voted in favor of the bonds. Some precincts cast ten to twenty votes in favor of the bonds where one was cast against.

At Brawley, Imperial county, the vote was: For, 165; against, none. Approximately one-half of the precincts in the county had already voted in favor of the highway bonds will be used to complete the existing State highway system. The remainder will be used for construction of connecting links and new highways.

While Los Angeles county was voting 8 to 1 in favor of the \$40,000,000 bond issue on Tuesday, cities in Antelope Valley were making the vote unanimously in favor of the improvement. In precinct No. 1 at Lancaster, sixty-six votes were cast, and all of them were for the bonds. Nearby, a small community, not far from Lancaster, cast all of her twenty-nine votes for good roads.

With twenty city precincts and 143 county precincts yet to be heard from, D. B. Lyons, registrar of voters, reported last night that Los Angeles city and county had already cast 25,694 votes for and 5261 against the \$40,000,000 bond issue. Mr. Lyons states that nearly all of the county precincts yet to be heard from are in the north end of the county, where the vote in favor of the bonds appears to have been almost unanimous. The final results will be tabulated today.

### INDICTMENTS CHARGE TAX FRAUD OF \$123,378.

[BY A. P. NIGHT WIRE.]  
NEW YORK, July 2.—Three more indictments were returned today in connection with the income tax frauds involving hundreds of thousands of dollars, which the government charges was ignored by the Sterling Accountant and Audit Company. The sum involved in today's indictments is fixed at \$123,378.

Morris S. Rackmil and A. Lincoln Samuels, officials of the Sterling company, are charged with having conspired with Isaac Weinstein and Samuel Samuels, furriers with A. N. Leventhal, furrier, and with Nathan Bloom, dealer in woolen goods, to defraud the United States government by making false income tax returns.

In the case of Weinstein and Samuels, it is charged that a return of \$14,634 was made when the correct amount was \$95,601; Leventhal's return was for \$2182 against a government claim of \$12,000.

### GOVERNMENT IS AFTER ADVERTISING MOVIES.

[BY A. P. NIGHT WIRE.]  
WASHINGTON, July 2.—Chairman Graham of the special House committee investigating War Department expenditures, announced today that in investigating the extent to which motion pictures made by private concerns for advertising purposes have been circulated at government expense, the committee has obtained information which should result in several persons, at least, being sent to jail.

"Information that the committee intended to investigate motion picture activities has inadvertently leaked out," said Mr. Graham, "but I do not believe that those who are guilty will have time to 'cover up' before we get after them."

### DIPLOMATS VISIT SEQUOIA.

[BY A. P. NIGHT WIRE.]  
VISALIA, July 2.—Secretary of Agriculture Houston and Mrs. Houston, and Dr. Hans Sulzer, Minister from Switzerland to the United States, were members of a party which reached Sequoia National Park, near here, this morning prepared for an extended camping trip.

To Have Four Organizers in Canada.  
[BY A. P. NIGHT WIRE.]  
DENVER, July 2.—A resolution to appoint four additional organizers to work in Canada, the East, West and South was adopted by the convention of the Brotherhood of Locomotive Firemen and Enginemen today.

Exclusive MANHATTAN patterns in the newest stripes and designs made for men for whom the best is none too good. Values that are assertive.

Went to War Home Again.

"MADE IN THE CUP AT THE TABLE"

SEES EARLY END OF PHONE TIE-UP

Phon Wires Trouble will Soon be Over.

Land Plans Suit to Compel Service.

Protests Importation of "Armed Men."

(BY A. P. NIGHT WIRE.)

SAN FRANCISCO, July 2.—A message from United States Senator Nathan, giving the Postoffice Department's forecast of an early ending of the strike of telephone electricians and operators on the Pacific Coast was received today by New York.

Senator Nathan's telegram said: "I am sure that the strike will be over presently. He adds to settle the remaining points in dispute affecting retroactive pay, I urged all possible speed."

In three California cities civic or governing organizations today protested conditions brought about by the strike of telephone electricians and operators, and at Portland, Ore., the State Board of Cancellation met in an attempt to bring about mediation between the workers and employers.

The Oakland City Attorney was informed by the City Commission that the telephone company, at Berkeley the City Commissioners have requested and advice as to whether the municipality has power to operate the telephone lines, and at Fresno the Chamber of Commerce telegraphed a United States Senator and Representative that "armed men are being brought into Fresno for the purpose of trying to break the strike of telephone girls and electrical workers."

Bulletins were posted in telephone exchanges at Tacoma, where the strikers have remained on duty, announcing a wage increase of \$1 a week.

In San Francisco leaders of the strike declared early adjustment of the difficulties was not anticipated by the workers, and plans had been made for a "long hard fight."

Company officials here maintained their attitude of declining to make a statement.

SOUND REGION CRIPPLED.

(BY A. P. NIGHT WIRE.)

SEATTLE, July 2.—Telephone exchanges in small towns around Seattle, including Kent, Auburn, Port Blaney and Renton, were crippled today as a result of the strike last night of operators.

SPOKANE THREATENED.

(BY A. P. NIGHT WIRE.)

SPOKANE, July 2.—Electrical workers and shop crafts unions of Spokane served notice today on F. J. Connor, receiver of the Spokane

International and Empire Railway Company that a strike of electrical workers and shopmen on the International and Empire lines would become effective at 3 p.m. tomorrow. The strike notice follows several months of negotiations for a wage increase. Conductors and motormen will not be affected for the present, it was believed.

SAYS APPROVED "FORD ANARCHIST" EDITORIAL.

EDITOR STATES MANUFACTURER ADVOCATED DESTRUCTION OF ARMY.

(BY A. P. NIGHT WIRE.)

MT. CLEMENS (Mich.) July 2.—Timothy Blake, testifying today in the Henry Ford-Chicago Tribune libel suit, recited reasons why he, as head of the editorial department of the Tribune, gave approval to the editorial headed, "Ford is an Anarchist," on which the million-dollar litigation is founded.

Before Mr. Blake was called, the time was taken up with the testimony of Col. Henry J. Reilly, who commanded the artillery regiment known as "Reilly's Bucks" in the Rainbow Division in France, and a long deposition from James W. Gerber, former United States Ambassador to Germany. He stated that at the Embassy the Ford peace ship Oscar II was known as "The Good Ship Nutsy." German official opinion was that the United States did not want to fight, and couldn't do so even if it so wished. Germany regarded pacifist propaganda in 1915 as favorable to her, because any peace at that time must be to her advantage. It was the Kaiser, he said, who declared that "America had better look out after the war."

When Mr. Blake was sworn, Attorney Kirkland of counsel for the Tribune, asked him to state why he approved the characterization of the manufacturer as "an anarchist."

"Because," said the witness, "at a time when the United States was in grave danger, he advocated the destruction of our army and navy; because he said he did not believe in patriotism; because, with the world in flames, he opposed preparedness; because he said the flag should be pulled down, and because he said that soldiers were murderers."

Col. Reilly is a West Point graduate and saw service in the Philippines and on the Mexican border as well as Europe. He has also traveled in Mexico.

"Francisco I. Madero tried to govern Mexico by law in accordance with the constitution and when he failed I became convinced a strong military government alone could control the country under present conditions," said the witness, testifying as to conditions in Mexico.

Angelenos Are Granted Pensions.

(EXCLUSIVE DISPATCH.)

WASHINGTON, July 2.—California have been granted pensions as follows: Sarah J. Slusser, San Diego, \$25. All following Los Angeles: Elizabeth Hag, \$25; Libbie B. Roberts, \$25; Mary J. Huntington, \$25; Nancy J. Brill, \$25.

QUAKE VICTIMS IN TENTS.

City Resembles Devastated War Area; American Y.M.C.A. Supplies Relief.

(BY CABLE AND ASSOCIATED PRESS.)

BORGIO (San-Lorenzo, Italy) July 2.—This city, wrecked by earthquake Sunday, resembles a town in devastated districts of France after an artillery bombardment. The cathedral is in ruins. Hundreds of homes and shops have been shaken down. Some of these, still habitable after the major shocks, fell down during later earth tremors.

Many people are living in tents. Military authorities have been unable to induce the bakers and the shopkeepers to return to their places of business because of the unsafe condition of the buildings. In the bakers shops many of the ovens were cracked by the earthquake. Hardly a house was undamaged. There appears to be little acute suffering, but there is a great demand for clothing and food which are in charge of the military authorities.

The local administration and business are disorganized and the inhabitants are giving free rein to looting. The first supply truck reached here Monday morning in charge of an American Y.M.C.A. staff under Harry Robert of Tucson, Ariz. He told the Associated Press correspond-

ent that when he arrived he was literally "nearly by the hungry people. He said the scramble for food was such that members of the Y.M.C.A. force mounted a wall and tossed the food to the people, because they could not hold them back on the ground."

"We offered our help to the Italian command at Florence," said Robert, who accepted it. "We then loaded our trucks with all the goods in our Florence canteen and started out behind a truckload of doctors. Although not the first truck to arrive, ours was the first with supplies. We have maintained a regular service from Florence since Monday morning."

POLES START OFFENSIVE.

(BY CABLE AND ASSOCIATED PRESS.)

PARIS, July 2.—Polish forces on Saturday started a counter-offensive along the whole Galician-Volynian front, according to advice from Warsaw. The Poles claim that they have everywhere broken the Ukrainian resistance and that the Lemberg-Halick-Stanislav railway line is again in Polish hands.

The enemy suffered severe casualties, 1000 prisoners, thirty machine guns and huge stores being captured. It seems that the Ukrainians were

ONLY ONE NONPARTISAN NOT OPPOSED TO WAR.

SUCH IS TESTIMONY OF FORMER LEAGUE EMPLOYEE AT TOWNLEY TRIAL.

(BY A. P. NIGHT WIRE.)

JACKSON (Minn.) July 2.—Testifying on cross-examination this afternoon at the trial of A. C. Townley, president of the National Nonpartisan League, and Joseph Gilbert, organizer, Ferdinand Teigan, a former league employee, declared, after he became connected with the organization in 1916, he came to the conclusion that every man of importance at Nonpartisan League headquarters in St. Paul, with one exception, was opposed to the entrance of the United States into the war.

"I do not believe that Gilbert was pro-German. I believe his opposition to the war was based on philosophy," Townley testified.

Later today attorneys for the defense announced they expect to offer testimony which they said would be substantiated in an attempt to impeach testimony of Teigan.

Teigan was cross-examined at length by the defense regarding his views as to the loyalty of a speech which Townley made at Glenwood, Minn., in June, 1917. The witness had testified on direct examination that in the morning before Townley had delivered this speech he and Townley had discussed the fact that a number of persons of German extraction probably would be in the audience.

"Townley, I believe, intended to discourage interest in the Liberty loan and to leave the impression with his audience that the government's financial preparations were not sound," testified Teigan. "I know what Townley meant when he said that things 'My knowledge was based on previous understanding,' the witness testified.

Teigan said that he was discharged from the Nonpartisan League in the fall of 1917. He severed relations there when Townley told him he would have to be "discharged" because of criticism of Nonpartisan League meetings during the summer of 1917.

Townley told me that he intended to make thoroughly patriotic speeches thereafter," said Teigan.

The witness testified he heard part of the address Townley delivered at the Nonpartisan League convention in St. Paul in September, 1917, and that he thought Townley made a loyal address.

Testifying regarding a conversation with Townley, about June 26, 1917, Teigan said he discussed with the Nonpartisan League president what the attitude of the league organizers should be in German districts of Minnesota.

"Townley said that in a German community it is all right to set forth our views in such a manner as to humiliate a little, but not to get too strong," testified Teigan. Direct examination of Teigan was completed early this afternoon.

PRISONER ESCAPES MICHIGAN OFFICER.

(LOCAL CORRESPONDENCE.)

LONG BEACH, July 2.—Word was received in Long Beach today that Ira Moore, arrested here about two weeks ago upon advice from Michigan authorities, had escaped from the Sheriff at Rock Springs, Wyo., on his way back to Michigan.

Moore is said to be wanted in Michigan on a series of charges, including that of horse stealing, bigamy and embezzlement. He was in custody of James Fournier, of Montclair County, Michigan, when he escaped. The manner in which he accomplished his getaway was not disclosed. The Wyoming authorities wired this city for his photograph.

GRANT FRANCHISE.

(LOCAL CORRESPONDENCE.)

Long Beach City Commissioners today granted permission for the establishment of an inter-city automobile passenger-carrying line between Long Beach and Wilmington. The permit to operate such a line was granted to the Long Beach and Wilmington.

Two resignations were received by the Long Beach Civil Service Commission today from members of the police department. Patrolman L. M. Newbury and Mrs. Grace Reinhardt, police matron, are those who announced their intention of leaving the municipal service.

CALIFORNIA APPOINTED PARK DIRECTOR.

(EXCLUSIVE DISPATCH.)

WASHINGTON, July 2.—Horace M. Albright, a Californian and a native of the Owens Valley country, who has been assistant director of national parks in the Interior Department, has just been appointed general superintendent of the Yellowstone National Park and leaves with his family next week to take up his new duties. In the winter he will return to Washington to complete some special work he had already undertaken in the department. The new position not only carries with it a large increase in salary, but also places Mr. Albright in charge of the largest of all the national parks with absolute power to develop the property along his own lines under the general policy laid down by the department. As a Californian he has been heart and soul in the plans for the development of the Yosemite and the new Roosevelt National Park and will in his new position do all possible to carry out the plans already made materialize.

ACCEPT STEAMER.

(LOCAL CORRESPONDENCE.)

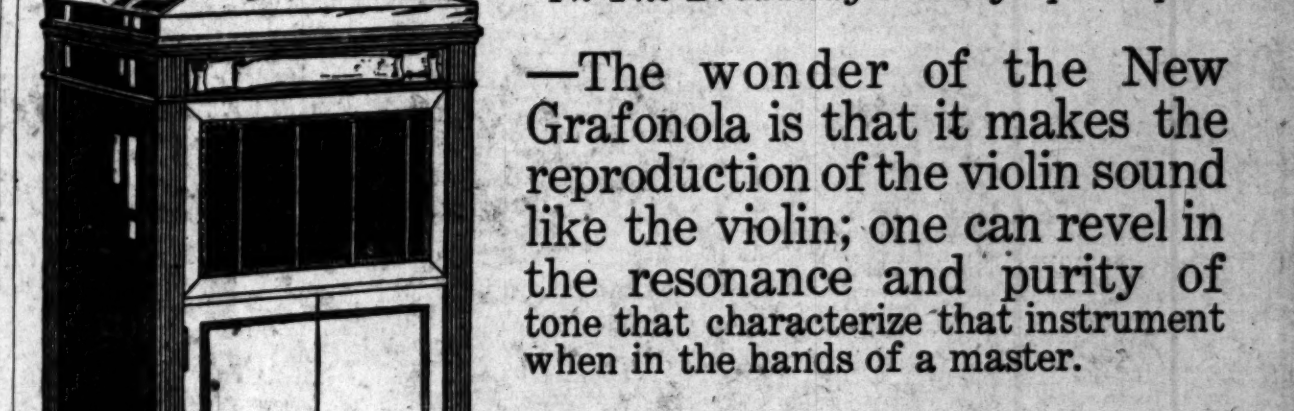

LOS ANGELES HARBOR, July 2.—The steamer West Kasson, built by the Long Beach Shipbuilding company and owned by the Emergency Fleet Corporation this afternoon after a successful dock trial. The engines were found to be in perfect condition and exceeded the speed requirements. The West Kasson is now at the First-street wharf taking aboard stores and supplies. She will be turned over to the Pacific Mail line at San Francisco for service between that port and the Orient.

Hear! The New and Improved Columbia Grafonola

In The Broadway Phonograph Dept.

—The wonder of the New Grafonola is that it makes the reproduction of the violin sound like the violin; one can revel in the resonance and purity of tone that characterize that instrument when in the hands of a master.

—Then the saxophone reproductions seem so natural that you can close your eyes and see the player. The clear tones of the flute are perfectly reproduced. Just the same with other instruments—The New Columbia Grafonola has an unusual power of reanimating tone qualities that are wonderfully "life-like." And the reproduction of the voice is equally fine.

The Prices for New Columbia Grafonolas Begin at \$90.00 and Go Up to \$225.00.

JAPANESE CLASH NOT YET SMOOTHED OVER.

IT IS UNDERSTOOD UNITED STATES DESIRES DAMAGES ALSO APOLOGY.

(EXCLUSIVE DISPATCH.)

WASHINGTON, July 2.—The negotiations between representatives of the American and the Japanese governments at Tientsin concerning the clash between American and Japanese soldiers in the Japanese and French concessions have not been concluded, it was learned at the State Department today.

While the Japanese consul general at Tientsin has expressed his regret concerning the incident to the American consul general, it is understood this action, which was taken late in May, is not entirely satisfactory to the State Department.

The administration denies that the first expression of regret was from the American commandant at Tientsin.

State Department officials refuse to discuss the negotiations further than to say that up to the present there has not been a satisfactory settlement. There is reason to believe however, that the investigation which was carried on in Tientsin by American representatives had been virtually completed and that the finding is more favorable to the United States than to Japan.

It is the understanding that the disturbance, which resulted in a series of snarling encounters between the Americans and the Japanese began in a disorderly establishment in the Japanese concession and that the circumstances which apparently placed the Japanese soldiers in the wrong was an assault on American soldiers in the French concession.

It is understood the United States desires not only a formal apology by Tokyo but also damages for the injuries suffered by the Americans, but this cannot be confirmed officially.

BOASTS TO POLICE OF HAVING BOMB FACTORY.

(BY A. P. NIGHT WIRE.)

NEW YORK, July 2.—Federal agents who have been seeking the perpetrators of the bomb explosions in eight American cities June 1 were informed today of the arrest by New York detectives of Paul Kreutz, a Russian machinist, who is said to have boasted to the police of operating a bomb factory and of being a Bolshevik.

After declaring he had a little machine shop in Manhattan where he was making bombs, Kreutz predicted the downfall of the United States government in two weeks.

ITALY ADDS TO REPORT OF DEATHS IN TREMOR.

(BY CABLE AND ASSOCIATED PRESS.)

FLORENCE (Italy) July 2.—Additional deaths have been reported from several parts of the Mugello Valley, but this morning no accurate estimate of the situation was possible.

The work of burying the dead and caring for the homeless is proceeding with the most intense zeal, the work covering an area thirty miles around Vicchio. This district seems to have amply supplied with food and clothing.

At Marradi, about twenty-eight miles northwest of Florence, tremors were felt yesterday. Several persons were injured.

The Five Best Books

of the season, the fruit and vegetable season, are the following:

1. "Home Canning by the Cold Pack Method" (for Northern and Western States.)
2. "Home Canning of Fruits and Vegetables" (for Southern States.)
3. "Farm and Home Drying of Fruits and Vegetables."
4. "Preservation of Vegetables by Fermentation and Salting."
5. "Home Storage of Vegetables."

These books have been prepared by the United States Government for the benefit of the housewives of the nation. Every housewife should have one or more of them. They will enable her to store away some of the summer sunshine that piles itself up in the fruit of July, in the vegetables of August, and keep it until the arrival of the drear months of winter. They will enable her to distribute and enjoy the fruits and vegetables of her own garden, of those she may buy at the height of the season, through a much lengthened period. They will enable her to save money.

Any reader of this paper, who is interested, is asked to cut out this advertisement, to make a check after the name of the book she wants, to pin it to a piece of paper on which her name is plainly written, to inclose a two-cent stamp for return postage, and mail to The LOS ANGELES TIMES Information Bureau, Frederic J. Haskin, Director, Washington, D. C. She will receive her publication by return mail.

## C.E. WORKERS ELECT OFFICERS.

Convention Just Closed Best in Society's History.

Fresno Chosen for Next Year's State Meeting.

Evangelist Delivers Last Address on Programme.

LONG BEACH, July 2.—Following a convention that exceeded all previous meetings from the standpoint of attendance, eminent speakers and work accomplished, Fresno was selected as the next meeting place by the members of the California Christian Endeavor Union here today and the following officers elected for the coming year: Ben J. Small, Oakland, president; Miss Pearl Callis, Longport, and Carl A. Bundy, Los Angeles, vice-presidents; Miss Lula M. Minter, Santa Ana, corresponding secretary; Lieut. Harry E. Straub, Los Angeles, treasurer. Superintendents were elected as follows: Ray H. Horton, Los Angeles, intermediate; Mrs. Harley Power, Livermore, junior; Miss

Edith MacDonald, San Francisco, quiet hour; Renee Morton, Oakland, evangelistic; Miss Angeline Townsend, Watsonville, tenth legion; Miss H. Geraldine Lester, Oakland, missionary; Miss Dea Wight, Riverside, hospital; Miss Lela Holland, Long Beach, efficiency; B. Irvine Valentine, San Bernardino, press; J. H. Banberry, San Diego, army and navy; Andrew R. Schottky, Merced, citizenship and temperance; Miss Elsa Koch, Sacramento, introduction; Miss Kathleen Bartie, San Jose, social.

Records of the present convention, the final session of which was held tonight, showed a registration of 5000 delegates, by far the largest number that has ever attended a similar gathering of that organization in the history of California. Sec. J. Small, general secretary of the Christian Endeavor Union, announced this afternoon that there are now 1001 Christian Endeavor societies in the State, with a total of 26,232 members. Of this number 3112 are converts.

Secretary Small also announced that there are now a total of 115 excellent societies, 33 superior societies, 20 excellent unions and 5 superior unions. In addition to these there are 20 excellent junior societies and 13 superior junior societies.

Charles Culver of Los Angeles, State president, presided at the closing session of the convention in the Auditorium tonight. John E. Brown, evangelist, delivered the main address of the evening, selecting as his subject, "Obedience to the Conquering Christ."

## SUPT. RHODES STANDING PAT.

Head of Pasadena Schools Refuses to Give up Keys.

Both Men Meet at School Board Meeting.

Crown City Justice Fines Camper for Leaving Fire.

PARADISE, July 2.—The local school controversy, which might be entitled "Who is Superintendent?" took on real zest today when the majority of the Board of Education elected Dr. John F. West of San Diego to succeed Superintendent Jeremiah M. Rhodes directed the latter to turn over the key and other details of his office to Dr. West. Superintendent Rhodes declined for the reason that he may test the validity of Dr. West's election. These events transpired, however, with polite and parliamentary demonstrations at a meeting this afternoon of the school board. Both Dr. West and Dr. Rhodes were present at the meeting but neither had

any comments to offer. There is no personal animosity between the two educators and the day's events were devoid of acrimony. Nevertheless Dr. Rhodes is not relinquishing his office.

Anticipating that he would be asked to turn over the affairs of his office to Dr. West, Superintendent Rhodes presented the following communication to the board: "I hereby to respectfully notify you that I do not expect to turn over the office of superintendent of schools to Mr. John Franklin West until on or after the date of organization of the new Board of Education and for the reason that I may desire to contest the validity of the board's action Tuesday, June 24, 1919."

"JEREMIAH M. RHODES." The new board, on which there will be a majority of Rhodes supporters, is scheduled to organize next Monday.

The present board, receiving this communication from Dr. Rhodes, adopted a resolution instructing the majority of the board to turn over to Dr. West the details and management of the office. The resolution was unanimously adopted by the three board members present—the majority which elected Dr. West—comprising Mrs. Clara Odell, George W. Woolley and Mrs. Ruth Weatherbee.

Dr. Rhodes said this resolution would not alter his determination not to turn over his office until after the new board organizes. Dr. West had nothing to say.

BIG VOTE FOR BONDS. With complete returns in today, Pasadena laid claim to giving the \$40,000,000 road bond issue a great

er majority than any other city in the State. Pasadena voted for the bonds by nearly 12 to 1, while the ratio in the State at large was judged to be 7 to 1. The total count in Pasadena was 2532 for the bonds to 304 against.

## FINE FOR CAMPER.

A fine of \$50 and a severe reprimand were administered to Paul Hutchinson of San Bernardino by Judge Raymond B. Thompson in justice court here today for violation of the fire regulations in Angeles National Forest. Hutchinson was convicted of leaving his campfire burning when he broke camp in the mountains near here. He had been instructed by Forest Ranger J. C. Cox to extinguish his fire and failed to do so, whereupon the ranger arrested him.

## CITY GOLF COURSE URGED.

City Commissioner John J. Hamilton is preparing recommendations for a municipal golf links, to be created by him by the city commission. Mr. Hamilton, who is commissioner of parks and public buildings, is much interested in seeing the establishment of a public course. He will recommend that a portion of the proposed upper Arroyo Park, on the shore of the lake which will be created by completion of the Devil's Gate flood-control dam, be made into golf links.

## TABLOID UNVEILING.

The unveiling of the tablet to be placed on the Old Mill (at Millino) on Oak Knoll in commemoration of the establishment of the San Gabriel Mission in the early days will take place next Tuesday afternoon at 2 o'clock, at the residence of the American Revolution.

July Fourth, big day at Coronado. Aquatic programme on bay front.—[Advertisement.]

## SAYS HE BURNED BARN.

Armenian Denies Relative's Property Because of Debt.

VISALIA, July 2.—H. Machoolian, an Armenian vineyard owner, arrested on a charge of having set fire to and destroyed a barn belonging to his uncle, H. H. Pelian, made a complete confession, according to Sheriff Court Smith. Machoolian is said to have told the officers that his uncle owed him \$400 and that he had refused to pay it. He became enraged, he said, and deliberately planned and executed the destruction of property worth \$5000. Pelian later told the Sheriff that he had borrowed \$1000 from Machoolian, that he repaid \$500 and that Machoolian owed him the other \$500 for board.

July Fourth and Fifth, dancing at "Hotel del Coronado."—[Advertisement.]

## AUTO ACCIDENT.

DUNELAND, July 2.—Al Fisher of Dulac sustained serious injuries Monday morning, when the auto in which he was a passenger turned turtle near here. Five other occupants of the car escaped with minor bruises. The accident is reported to have been caused by a smaller car which attempted to pass the other without sounding a horn. The big car made a sudden swerve, to avert a collision. In doing so, one wheel got off the pavement into the sand, causing the car to turn a complete somersault. Mr. Fisher was taken to the hospital at El Centro.

## TOO MANY WIVES.

VENTURA, July 2.—That her husband had another wife living from whom he had not been divorced at the time he married her is the charge made by Mrs. Blanche Tolar of Oxnard against Sam W. Tolar, Mrs. Tolar is asking for a divorce in the superior court here. The Tolars were married in San Francisco on December 27, 1915.

## CREATEST SINCE TIME BEGAN.

(LOCAL CORRESPONDENCE.) IMPERIAL, July 2.—The past month is eloquently proclaimed by T. D. McCall, cotton rancher here, as the greatest month in the world's history.

"It marks the crossing of the great Atlantic for the first time with an airship," he said while here yesterday to vote on the good road bonds. "It will be remembered as the month in which the United States of the world was formed. George Washington, the father of his country, will be overshadowed in history by Woodrow Wilson, father of the United States of the world. Also, it will be recorded that at the close of this month three very prominent men gave up the ghost—John B. Cohn, D. Rum and Adolph Beer."

## BUSINESS CLUB TABOOS POLITICS.

ASSOCIATED CHAMBERS OF COMMERCE ADOPT STRONG RESOLUTION.

(LOCAL CORRESPONDENCE.) POMONA, July 2.—As a further safeguard against the possibility of politics undermining the organization of the Associated Chambers of Commerce of the San Gabriel Valley, that organization, at its annual meeting, voted unanimously that any person holding an elective State or county office should not be elected to office in the association. Furthermore, it was voted to amend the by-laws so as to automatically terminate the term of office of any official of the association at the time he enters the race for an elective State or county office.

The motions were made by Frank Wheeler of Claremont, president of the association, who spoke at some length on the motions. An important matter of business was the re-election of all of the old officers, as follows: President, Frank Wheeler, Claremont; first vice-president, E. J. Schultis, Baldwin Park; second vice-president, J. E. Killian, El Monte; secretary, C. P. Bayer, Pomona; treasurer, J. B. Blair, Azusa.

There are sixteen cities and towns of the Upper San Gabriel Valley represented in the associated chambers.

In recognition of his services during the last year, Secretary C. P. Bayer was presented with a purse of \$50. It was voted to hold an annual picnic, and J. M. Paige of Pomona extended an invitation to hold the first picnic in Ganesha Park, using the Greek theater for the presentation of the annual high links. It is expected that the invitation will be accepted.

Annual reports showed the treasury of the organization to be in good condition, while much was accomplished during the last year, despite the fact that the flu ban gave opportunity for only five meetings.

## BACK FROM WAR ZONE.

(LOCAL CORRESPONDENCE.) VENTURA, July 2.—James E. Reynolds, for many years county superintendent of schools here, has returned from Europe, where he served with the Red Cross during the war. His wife was elected superintendent of schools during his absence.

## CHURCH MEETING CLOS.

(LOCAL CORRESPONDENCE.) SANTA MONICA, July 2.—Scores of people interested in child welfare and education, besides the appointed delegates to the summer convention of Episcopal Sunday-school workers, gathered at St. Augustine's Church by the sea, this morning to hear the discussion led by Rev. R. L. Windsor. In his short address, Rev. Windsor "dramatized some old ideas" and laid special stress on the radical departure now necessary in the church-school. "From the moment the treaty was signed last week, we entered into a new world," he said, "and there was put before us a new heaven. Everything that happened before that time is ancient history. We are beginning again; attacking a new life, and the children we are teaching, molding in our Sunday-schools, are the future leaders of the new age. In order to nurture them properly, radical departures are necessary in the church-school."

The speaker declared that one of the most necessary of these departures is that of destroying the idea that a missionary effort is a small, narrow activity of the church, separated from the worldly side of life. He declared that one of the greatest works of missionary effort made in modern history was President Wilson's mission to the Peace Conference in Paris, and he spoke of its expression of christian ideals. Rev. Windsor discussed in detail the question of remuneration for Sunday-school teachers. He set forth the opinion that every church should give its teachers all the support that is possible in the study of good books and the opportunity of hearing educational lectures. He opposed a regular remuneration for teachers as being against the ideals of christianity.

In the general discussion that followed, it was agreed by most of the delegates that a more rigid method of certifying worth among teachers and scholarship among students is necessary.

At 2:00 o'clock this afternoon, Rev. R. B. Gooden led a discussion on an educational secretary for the diocese. Rev. Gooden spoke highly of such a secretary, declaring that it

forenoon, afternoon, evening.—[Advertisement.]

## NO MUNICIPAL PLANT.

(LOCAL CORRESPONDENCE.) PORTERVILLE, July 2.—In the special election called here on the proposal to issue \$100,000 in bonds for the acquisition and operation of a municipal gas plant was overwhelmingly defeated. The vote was 160 yes, 280 no.

Only a very small proportion of the registered vote was cast. Officials of publicity organization, who opposed the proposal, had planned an organized effort to get out a large vote. It was seen early in the day, however, that very little favor was given to the proposition and these plans were abandoned. One of the chief objections to the plan was the form of contract entered into with a firm of Los Angeles engineers, whereby in case the bonds were approved they were to be paid \$16,000 for the plans and supervision of the construction of the plant.

July 4th and 5th, special events planned. "Hotel del Coronado."—[Advertisement.]

A smile by a man in the jail that showed two front teeth capped with gold, yesterday morning, was the first sign of a swindler's capture. The man, who was taken to the end of a trail of the same time brought in, was arrested on a charge of swindling. The man, who was taken to the end of a trail of the same time brought in, was arrested on a charge of swindling. The man, who was taken to the end of a trail of the same time brought in, was arrested on a charge of swindling.

DEAR BOOZE SALES.  
Dealer and Clerk Heavily Fined  
Lose Much Liquor.  
Found guilty of selling hard liquor in a wholesale liquor store at 400 South Spring street on April 4, Richard, the owner of the store, and George Berlinger, a clerk, yesterday paid fines in Police Judge Chamberlain's court amounting to just \$1390. According to Police Detective Harry Armstrong, who made the arrest, the two men dispensed quantities of whiskey and other liquors from the liquor store. When arrested, a large amount of liquor was seized by the police and taken into court as evidence. Richard, who was found guilty on two counts, paid two fines of \$100 each. Berlinger turned over to the police \$100.

# The People and Their Troubles

## DOROTHY DIX TALKS

Cheerfulness.

BY DOROTHY DIX.

Did you ever think of cheerfulness as a financial asset—something that is money in your pocket, and that is legal tender for food and drink, and lodging and clothes, and with which you can buy success and popularity, and all the good things of life?

Well, it is. We are in the way of considering cheerfulness a spiritual quality, the glow that emanates from happiness and well-being. It is that, and more. It is the first aid to getting there, and the man and woman who wear the smile that won't come off carry about with them a talisman that brings them sure good luck.

Take two boys of equal ability, of equal character, of equal energy and ambition. Let one of them have a bright, sunny disposition and the other one be glum and morose and grouchy, and in ten years' time the cheerful lad will be so far ahead of the gloomy Gus that he won't be even in telephoning distance.

For everybody will have helped the cheerful boy and given him a hand up as he went along, and everybody will have side-tracked the melancholy one and kept out of his way as far as possible. Employers like to have bright, happy looking employees around them. Customers like to deal with interested, smiling sales people. Business men enjoy doing business with jolly men who have funny stories to tell and whose laugh is hung on a hair trigger.

Optimists run the world. The pessimist who has no faith in God or man, who thinks that everything is rotten and that the universe is going to the dogs never pulls off a big deal. He chills enthusiasm, he paralyzes effort, he slays hope, and makes you feel that nothing is worth while, and every scheme a foredoomed failure even before he broaches his plan, and you instinctively say "no" to his proposition because his personality has yet blackened it to such an extent that it is no longer alluring.

On the other hand the cheerful man can sell us far overcoats to wear in the tropics, or orange grove in Maine, because under the magic of his smile everything seems right and feasible in this best of all good worlds.

As for popularity, cheerfulness is the same that opens every door. It will make more friends for you than all the cardinal virtues and carry you farther in society than brilliancy, or wit, or any other talent or grace.

The friends that we grapple to with hooks of steel are those whose coming is like the turning on of the light in a dark room. The men and women who bring us something of hope and cheer, and good will, and who leave us the happier even if we only see them for a moment. The guests who are always welcome in our houses are the merry and the light-hearted, those who can make a

her waist measure. Nor do you ever see a woman out on a still hunt for an affinity who understands her, if she is married to a cheerful man whose presence is like sunshine in the home.

Nor do you ever hear of children running off from a cheerful home. It is the dyspeptic, nervous, gloomy, pessimistic husbands and wives that fill the divorce courts. It is from the dark and bleak and gloomy homes that children escape as soon as they possibly can.

But how can one achieve this cheerfulness in a world of woe, some may ask. By keeping the brave attitude towards life. By refusing to talk of your own troubles, and by resolutely cultivating cheerfulness as assiduously as we now do gloom. It can be done. And it pays.

### QUESTIONS ANSWERED

Q: What was the origin of the phrase, "Lafayette, we come?"

A: Gen. Pershing coined this phrase in a speech at the tomb of Lafayette shortly after the arrival of the American Expeditionary Force in France.

Q: What is President Wilson expected to do after his term of office has expired?

A: It has been intimated that he will devote himself to writing a history of the great war. It is argued in that connection that as a man of acknowledged literary ability, he is in a more advantageous position to write a history of a great war than has been any historian of the past.

Q: Do the colored glass globes in drug store windows have any particular significance?

A: Yes, they indicate that the man who operates the store is a licensed pharmacist.

Q: What is the origin of grapefruit? Where did it get its name?

A: Grapefruit is native to the West Indies. It was early introduced into Florida and its qualities improved by breeding. It is believed to have been given its name because of the fact that the fruit grows in clusters and in that respect resembles grapes.

Q: When and where was the first locomotive used?

A: Locomotives were first used on a road built by the Delaware and Hudson Canal Company between Carbondale and Honesdale in Pennsylvania in 1825.

Q: What is the explanation of the excessive growth of giants?

A: Giants suffer from a disease of a gland at the base of the skull. An X-ray picture of the brain will show if this gland is affected. Children of abnormal growth of corpulence should be examined in this respect, and if affected, should be treated.

(Any reader can get the answer to any question by writing The Los Angeles Times, Information Bureau, Frederic J. Haskin, Director, Washington, D. C. Give full name and address and inclose 2-cent stamp for return postage. Be brief. All inquiries are confidential, the replies being sent direct to each individual.)

## LETTERS TO "THE TIMES."

**Banks and Savings Depositors.**  
LOS ANGELES, July 1.—[To the Editor of The Times:] I take money to make money is an old saying, the truthfulness of which has never been disputed, but there is nothing in it which would imply that the earnings thus made should not belong to the owner of the original funds. When we hear about someone making money from funds belonging to someone else

usually think of bunco men and others of the same ilk, but when perfectly respectable bank undertakes to do the same thing—of course it must be all right. Anyhow, just follow this little game a moment.

A certain woman has \$1500 in cash. Being afraid to invest it in stocks or bonds, she puts it in a savings bank, which agrees to pay her 4 per cent. interest, per annum,

payable semi-annually on the money on deposit for a full period of six months. Soon after making this deposit, she withdraws \$500, leaving a balance of \$1000. A few days later she deposits \$200, bringing her balance to \$1200. A little later she draws another \$500, which leaves \$700 to her credit. Then she afterwards deposits \$200, bringing her balance again to \$900, a month after she draws \$350, reducing her balance to \$550. All of these transactions take place within one period of six months, and the lowest amount at her credit at any time was \$650, and her average monthly balance was over \$1000.

Now comes the time for the bank to figure her interest. See what happens. The bank says to her, "You deposited \$1500, but during the past six months you have withdrawn at various times \$1350, so that you have only had \$150 on deposit for six months. This is the amount we must figure interest on. You do not expect us to pay interest on money you withdrew." And so this poor woman, knowing that the bank is perfectly honest and above-board, accepts interest on \$150 and goes on her way contented. Figuring along the same line it is reasonable to conclude that if the woman had been unfortunate enough as to withdraw another \$500, bringing her total withdrawals up to \$1350 (but leaving a balance of \$150) she would have owed the bank interest on \$250, because her total withdrawals exceeded by that amount her initial deposit. Some figuring! During this time the bank had the use of her money to lend out at 6 per cent. and better. And the wonder why most bankers are fat.

J. VERNON GIVAN.

**Reason for Alarm.**

RIVERSIDE, June 30.—[To the Editor of The Times:] With pleasure I read an editorial in The Times of yesterday, "Citizenship and Labor," all of which in my way of thinking is in the right direction. Johnson's bill is all right to incorporate the American Legion. Among our returned soldiers there are to be found many Bolsheviks. This legion would only embrace those who are 100 per cent. American and they will be the vast majority to hold in check the other kind; further the article says an impressive meeting was held in this city Friday for the purpose of forming an anti-Bolshevik league which also means 100 per cent. Americanism all against I.W.W. and all who seek to overthrow this government or to seek, as organized labor does, special privileges; Americanism is this: a stable government under law under which all have equal opportunities and equal rights rigidly lived up to and enforced when necessary.

An organization based on these fundamentals is essential throughout the length and breadth of this country if the old flag is to float at the masthead. We cannot fight these destructive elements single handed; it must be by a great solid organization. The mass of American people are loyal and can be organized if the right men undertake it, and with such an organization the government can be maintained unimpaired. Will it be done? Or will we adopt the plan of watchful waiting and wait for real revolution or internal war? Some good men see no reason for alarm; but there is reason for it and except we awake and get to work with a will it will come as sure as the sun is to shine.

A. CHASE.

**The Leviathan.**

LOS ANGELES, June 28.—[To the Editor of The Times:] In your paper of June 28, there appeared a small article, stating it had been reported from Paris that the great steamship Leviathan was to be used in the future as a transport for United States army officers only.

It seems to me that it would be a lot more just if the above mentioned steamer were to be used for the transportation of enlisted men only. According to statistics, one officer is allotted as much transport

space as six and two-thirds enlisted men, and, with all due respect to our American army officers, I am quite sure that the largest percentage of them were never quite able to do six and two-thirds as much fighting on the western front as each one of our good American soldiers did.

What is more, the commission personnel of the American Expeditionary Force is not subjected anywhere near the amount of hardships, rough living and coarse food to which the enlisted personnel is subjected.

The war is over now, and when one is an officer or an enlisted man we all are Americans and we all give the same accommodations to the officers as are allotted to the enlisted men—and on the home-bound trips, instead of the two weeks it takes the Leviathan were asked for an exclusive transport of American officers—make happy four-legged American families who have given sons and husbands to our glorious army.

A RETURNED MEMBER OF THE A.E.F.

**Let's be Good About It.**

ELIZABETH, June 28.—[To the Editor of The Times:] Read it, then try to calm down and used to it. Of course, it's a matter of the forty-eight done over the Constitution, but as Dorothy says, "Time is a great adjuster." New Year's resolutions were easier to keep.

I remember how some of us in the farmer boys' wicked when John closed the saloons and we fill up on red liquor and go wild in homes at midnight on the cayuses. But we quickly got to it when it was under the law and not one in twenty of us patronized the bootleggers. Studies of Kansas are glad they got up in a State where the booze is taboo.

Old John Barleycorn is a loser. For many decades the hair came up smiling after we waited and resumed the fight. Booze is madder than Jim Connel when Fitt put him on the mat the count. But we should have never did much good and done a mighty bit of harm. "World" do move," as old Jasper said. Let's be good about it.

W. F. THOMAS.

**DEAR BOOZE SALES.**

Dealer and Clerk Heavily Fined  
Lose Much Liquor.

Found guilty of selling hard liquor in a wholesale liquor store at 400 South Spring street on April 4, Richard, the owner of the store, and George Berlinger, a clerk, yesterday paid fines in Police Judge Chamberlain's court amounting to just \$1390. According to Police Detective Harry Armstrong, who made the arrest, the two men dispensed quantities of whiskey and other liquors from the liquor store. When arrested, a large amount of liquor was seized by the police and taken into court as evidence. Richard, who was found guilty on two counts, paid two fines of \$100 each. Berlinger turned over to the police \$100.

## Hamilton's The Packard Shoe for Men

A new pair of Oxfords is what you need to complete your summer attire. It is a conceded fact that if you want the proper thing in men's footwear Hamilton's is the place to buy them. We close Friday and Saturday.

Hamilton's Two Stores  
223 W. 7th St. 502 S. Broadway

## LANG CHOSEN AS DENTISTS' HEAD.

Los Angeles also Gets Next Year's Convention.

May Invite National Body to Hold Meeting Here.

Oral Prophylaxis in Schools Cuts Reporative Work.

Dr. J. Elton Lang of Los Angeles was elected president of the Southern California Dental Association yesterday morning, at the closing session of the twenty-second annual convention, at Trinity Auditorium. The association voted also to accept the invitation of the San Francisco Dental Association to meet with that body some time next year. The exact date will be determined upon by the board of counselors of the two organizations.

Other officers elected yesterday were: Dr. A. H. Gilbert of San Diego, first vice-president, and Dr. E. H. Lyman, Santa Barbara, second vice-president. The secretary and treasurer are appointed by the board of counselors. Three new members of the board were chosen yesterday. They are: Dr. W. E. Sibbey, Los Angeles, the retiring president; Dr. Frank R. Damon, Whittier, and Dr. Walter A. Brown of Pomona.

A resolution, endorsing the work that is being done in the public schools and the work that has been done teaching the children oral prophylaxis, was adopted, and the association urged the Board of Education to continue this work, which, the dentists say, is reducing the need of reporative work.

No action was taken looking toward the securing of the 1922 convention of the National Dental Association. The matter is being held in abeyance to be considered later by the board of counselors. It is estimated 5000 dentists will visit this city if the convention comes here. Resolutions of condolence over the death of Dr. C. B. Herbert of Riverside, who died yesterday, were adopted.

Los Angeles was chosen for the next convention, which will probably be held at the College of Dentistry in July.

In addition to the scheduled programme of yesterday afternoon, which consisted of a clinic on the "Technique of Constructing Cast Cases," a clinic on "Root Canal Surgery," and one on "Amalgam Restorations," Dr. Euphrasius, professor of prosthetic dentistry at the Chicago Dental College, held an extra clinic on the "Hall Methods of Prosthetic and explained the Hall articulator. Dr. Hall is visiting in Los Angeles for several weeks, and it was reported he is to open a school here, teach-

Dr. J. Elton Lang.

ing his own method of prosthetic dentistry.

The newly-elected president of the association, Dr. J. Elton Lang, was prominent in Los Angeles during the mobilization of the draft army. He was in charge of the prearranged dentistry work for the army, and the civilian relief work of the Red Cross. With the assistance of other dentists of this city, the doctor performed a number of operations which made it possible for many men to be accepted by the army, who would otherwise have been rejected because of their teeth.

## A Few Minutes a Day for a Good Complexion

Try this simple formula—  
"A little CREME ELCAYA rubbed gently over the skin, then if you need color, a very little ELCAID cream spread over the face before the cream is quite dry and after that the face of fine powder over all."

## CREME ELCAYA

## DAILY TRADE TALK.

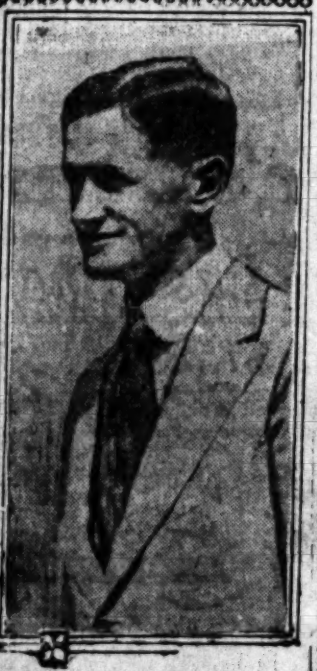

Business Moratorium; Beans and Beef;  
Fish Cheaper.

**BY CHAPIN HALL.**  
Considering the fact that we are  
on the eve of a three-day moratorium  
business yesterday was well sus-  
tained, especially in retail lines.  
Stores were crowded and goods  
were moving rapidly. A large vol-  
ume of trade is flowing through the  
furniture establishments just at  
present. A certain indication that  
many new homes are being estab-  
lished in this city. Furniture, like  
almost everything else, is rising  
steadily in cost, and buyers are  
literally scouring the country in an  
effort to keep stocks well sustained.  
One big house wired a member of  
the firm who is East on a buying  
trip: "Don't haggle over price, but  
buy." Heavily increased labor and  
raw material costs are sending the  
price of almost every line of furni-  
ture skyward. For instance a desk  
similar to one purchased three years  
ago for \$25 is now offered at a  
"great reduction sale" for the "bar-  
gain price" of \$37.50.  
Yet in the face of this condition  
business is fine. Clerks are busy,  
and the order books are full. There  
are fewer requests for credit, and  
when installment features are taken  
advantage of the payments are being  
met with promptness and are often  
anticipated. A better grade of  
furniture is being sold than before  
the war, and the "cheap stuff" is  
in little demand. "This condition  
prevails right down the line, and in  
spite of the charges which seem  
prohibitive when compared with  
those of antebellum days, the buying  
public appears to be less concerned  
than those of us who are busied  
trying to find out how they can do  
it. In stocks and bonds there is a  
temporary slowing down due to the  
impending holidays. The municipal  
bond market is especially top heavy  
just at present, and several of the  
issues which were purchased with  
so much gusto a few weeks ago are  
being carried on the shelves. Local  
investors are eagerly awaiting the  
announcement of the new Good-  
year offering, and advance indica-  
tions are that this will find ready  
sale in the home market.

**The Stock Market.**  
Union Oil and United Eastern  
Mining were the market leaders in  
a day which was not noted for fea-  
tures. Union opened at \$153, hold-  
ing steady at that price throughout  
the trading and closing a quarter up  
at \$153.35. Scattered buying orders  
of considerable size readily absorbed  
all the stock offered up to that re-  
turn. Other oils were comparatively  
steady, but none of them showing  
any gains to speak of. Industrial  
issues were active and strong. Cal-  
ifornia Packing, cornered at a  
good recovery from the doldrums  
into which it dipped earlier in the  
week and sold up to \$73.25, within  
a point of the highest price it has  
ever brought. Union Sugar was  
also up and small lots changed hands  
at \$41.50. This issue has registered

**Bean Planting Time.**  
In spite of the difficulties in mor-  
ning the 1919 bean crop does not  
appear to be in much better condi-  
tion than those of last year. The  
co-operative marketing plan  
adopted has proven so efficacious  
that there is reason to believe there  
will be no repetition of the condi-  
tions of last winter. Forty thousand  
sacks of beans, largely tops, are still  
in storage at Porterville, and there  
are liberal supplies at other points,  
but the market is getting better and  
the supplies are expected to be  
before the new crop is harvested.  
**Fish Situation.**  
The fish situation is still far from  
satisfactory when viewed from the  
standpoint of the fisherman, but  
some of the annoyances to which he  
was subjected by the State have  
been ameliorated, and there is less  
confusion in marketing the catches  
from day to day or in establishing  
a suitable price. The fish have  
been running strongly for some time  
and both the fresh markets and the  
canneries have been well supplied  
at the present time. The reversal of  
the decision of the United States  
Customs Department in conjunction  
with the War Trade Board puts off  
until the end of the fishing season  
the law prohibiting alien-owned  
vessels of five tons or over from  
exporting fish. This law, which  
has been a constant annoyance to  
boats in the Los Angeles district  
operated by foreigners who were  
much concerned over the new  
restriction, will be in force for the  
current season, but warning notice  
has been served that the question  
will be again raised  
at the end of the season. This  
probably means that the alien owners  
(Continued on Seventh Page.)

## LIVE-STOCK EXPERT QUITS UNCLE SAM.

F. P. Allen.

Who has been in charge in Los  
Angeles of the Federal bureau of  
live-stock markets and who an-  
nounces his resignation, to accept  
a very attractive offer made him  
by a local packing company as  
buyer. Mr. Allen, since coming  
to this city, has made many  
friends among Southern California  
cattlemen, growers and buyers  
alike by his efforts in their mu-  
tual behalf. The government  
urged Mr. Allen to take charge  
of its Salt Lake live-stock bureau,  
but he declined the opportunity,  
preferring to remain in Southern  
California, where he intends to  
make his permanent home. He  
came here about a year ago from  
Philadelphia, where he was in  
charge of the Federal bureau of  
markets.

## LOCAL STOCK EXCHANGE.

## LOCAL PRODUCE IS ACTIVE AND STRONG.

WATERMELONS SHOW FURTHER  
DECLINE; CHERRIES DOWN;  
NEW POTATOES UP.

The local produce market continued active  
yesterday and all commodities which were in  
short supply and which were in demand by  
local retailers and home makers in an unusual  
degree. There was considerable commotion  
among buyers in the early part of the morning  
owing to the fact that there was very little  
stock in the market. The market was very  
active and the prices were very low. The  
watermelon market was very active and the  
prices were very low. The cherry market was  
very active and the prices were very low. The  
potato market was very active and the prices  
were very low.

Cherries were very scarce, but prices made a  
fractional decline owing to the poor quality of  
all the cherries. The watermelon market was  
very active and the prices were very low. The  
potato market was very active and the prices  
were very low. The cherry market was very  
active and the prices were very low. The  
watermelon market was very active and the  
prices were very low. The potato market was  
very active and the prices were very low.

American Steel Foundries is the largest producer of steel cas-  
ings in America. It operates nine plants, at Chester, Franklin,  
Sharon and Pittsburgh, Pa.; Alliance, Ohio; Indiana Harbor and  
Hammond, Ind.; Granite City and East St. Louis, Illinois.  
Capacity of these plants, between 310,000 and 360,000 tons per  
year, consisting of large lines of specialties for railroads as well  
as miscellaneous castings of all kinds.  
This issue will be used to purchase control of the Griffin Wheel  
Company, an old established business which is the largest man-  
ufacturer of iron wheels for steam and street cars, with well-located  
plants at Chicago, Detroit, Denver, St. Paul, Tacoma, Kansas City,  
Boston and Los Angeles.  
**COMBINED EARNINGS**  
Assuming the acquisition under our offer of all the common  
stock of the Griffin Wheel Company there would, on the average  
earnings of this company for the past six years and our company  
for the past thirteen years, be applicable for dividends of 7% of  
the issue from the combined earnings, after deduction for our  
venture interest and Griffin preferred stock dividend, and after  
average depreciations of \$336,021.41, the sum of \$2,574,506.38 or  
annually, or over four times the dividend requirements of this issue.  
**COMBINED ASSETS**  
The net quick assets of the combined companies at December  
31, 1918, are \$17,606,868.53; deducting therefrom the outstanding  
4% Debentures and the Preferred Stock of the Griffin Company  
there remains a balance of \$10,554,168.53, or \$115.36 a share, ap-  
plicable to this issue.  
**Price: \$98.50 and accrued dividend.**

STADIUM, Tuesday  
y. Earl Eby and M. P. Spink  
of Chicago, finished first in  
the 400-meter dash in a  
race. Simpson, with William  
of New Zealand was third, tim-  
ing being fifty seconds flat. Whit-  
ter and James Humphries, two  
Americans, finished the race  
in the broad jump. Morris  
France won third place. Tim-  
ing jump was 3.14 meters.  
In the final of the 200-meter  
dash, won by Robert T. Simpson,  
the record would undoubtedly  
be broken except for the fact  
that the third hurdle was in-  
complete, throwing the runner  
off stride. Simpson, with Wil-  
liam of New Zealand was third,  
time being fifty seconds flat. Whit-  
ter and James Humphries, two  
Americans, finished the race  
in the broad jump. Morris  
France won third place. Tim-  
ing jump was 3.14 meters.

Finneran Ducks Oil of Tar; Morley Ex-Rayed.

BY HARRY A. WILLIAMS.

July baseball in these parts is not

what it is cracked up to be. Judging

from yesterday's pastime, in which

Vernon slammed Salt Lake, 10 to

5, what the athletes need is a little

spring training in mid-summer.

This is particularly true of the

visiting players. There can be no

criticism of the Tigers as long as

they continue copping regardless of

the general appearance of the bat-

ties. At that, the home guard did

not loom up to its usual standard,

and won only because the Bees were

able to play worse ball, and that

is saying a good deal, for the vis-

itors missed more field goals and

fumbled more passes than I can

count. The home team, however,

that ever played here prior to the

opening of the football season.

Also, their pitching was horrible.

Gene Dale, a heavier with a uniform

and everything except a range

finder, made a gallant effort to find

the plate for one and one-third in-

nings. His exploring expedition

wasn't successful. He didn't get any

nearer to the plate than Doc Cook

did to the North Pole.

DOC GOT CLOSE.

In fact, there is reason to believe

that Doc had it on him a little.

Doc got close enough to imagine

what the North Pole looks like from

a distance, while Gene can't even

Water Trip Makes Champs of Northern Ball Tossers, Filling Them with Much Pep.

In the upper cut is shown the 1919 winners of the State high school baseball championship, the twelve

doughty warriors of Oakland Technical School. After a voyage replete with soothing sea breezes, these

lads wallowed Fullerton by a one-run margin and annexed the chief of all prep sport honors. In the

lower picture can be seen Coddling, the Oakland second baseman, sliding into the rubber in the first half

of the seventh frame. Unfortunately, the ump called him out, but a noble effort was made, as is proved

by this shot.

## MISSOULA MIKE, PALLBEARER.

BY HARRY A. WILLIAMS.

On the best, he ain't a comparative

stranger in this part of the city.

"Blinkin' painfully, we both spots

of empty bottles on the bu-

reau. Seems we had brought 'em

up full of contents as a night cap.

Joe asks me not to move or shake

the bed, as a slight jar is likely to

explode his head. I tell him that I

already can hear the detonator bus-

in' in mine an' he'd better duck

for safety. We was both plum mis-

erable, an' sufferin' worse than an

ulcerated tooth.

"Finally, I says, 'See them bot-

## JACK MUST KEEP COOL.

ANGELS LOSE  
TO BEAVERS.Walker Signifies Return with  
a Homer.Oldham Pitches Fine for  
McCreedies.Seraphs Almost Tie Score in  
Eighth Inning.

(SPECIAL DISPATCH.)

PORTLAND (Or.) July 2.—"Dixie" Walker celebrated his return to the Beavers' line-up on the Vaughan-street grounds today by winning a perfectly good ball game, 2 to 1, from the league-leading Los Angeles club by lining out a home run in the fourth inning with Billy Spear on the bag. It was a good game from start to finish and the 2000 fans assembled will never be convinced that Walt McCreedie's warriors cannot play ball.

The Angels threatened to score several times, but did not put their less tally over until the eighth inning, when Ray Bates, batting for Fabrique, hit out and came home after a few minutes on the paths on a wild pitch.

"Red" Oldham worked on the mound for the Beavers and twirled excellent ball. "Red" was touched up for seven hits, but they were well scattered. Paul Fittery was effective for the Angels until the fourth inning, when he was touched for three hits, one of them being Walker's circuit clout.

"Red" Killefer's crew gave the fanatical thrills in the eighth inning. "Red" himself, the most feared ball player in the league, came up first and flew out to Bates. Ray Bates was sent in as a pinch hitter and delivered a crashing single to right. Jacques Fourrier reached first on Charlie Moore's error, with Bates ambling down to second.

Right then and there it looked bleak. Bates reached the third corner on Sam Crawford's out and dashed home on a wild pitch. Killefer flew out to Moore, ending the inning.

Los Angeles stepped out on high early in the ninth, but were short lived and the Beavers sped through with a well-earned victory. Walker dropped Walter Bates's fly at center field in the ninth and Schultz, who was sent in the box in place of Fittery in the seventh, nabbed a fly. It looked as though the Angels might hit it up, but Killefer followed Schultz and grounded out, letting the fans go home.

Los Angeles' record after the game was 10 wins and 10 losses. The Beavers' record was 10 wins and 10 losses. The Angels' record was 10 wins and 10 losses. The Beavers' record was 10 wins and 10 losses.

# Ohio City Packed by Fight Bugs; Willard's Lip Cut Again; Sleeping Room at Premium.

## BOWLING NOTES.

The Pacific Electric trio of wood smashers sprung a surprise on the Security Bank aggregation of ten pin experts (who figured to take at least the odd) by taking the entire series. The bankers were obliged to give a handicap of 21 pins. Three of the games were won by margins from 5 to 7 pins.

Cove's 218 in the second game is the league record. It can be said for the bankers that both Giffen and McMullen have been out of the game for some time and neither has struck his stride.

The Anaheim Elks bowling team is scheduled to play B.P.O.E. No. 35 at the Majestic alleys Tuesday, July 8th. The score:

Team	1	2	3	4	5	6	7	8	9	10	Total
Security Bank	125	135	175	187	187	187	187	187	187	187	187
Bankers	125	135	175	187	187	187	187	187	187	187	187

## THOUSANDS OF FANS PRESENT.

(BY A. P. NIGHT WIRE.)

TOLEDO, July 2.—Sweeping down upon this city, situated on the shores of Lake Erie, by every means of modern transportation, thousands of boxing enthusiasts are tonight seeking places to lay their heads during the forty-odd hours that intervene before Jess Willard and Jack Dempsey enter the ring. Long lines of railroad trains, strings of steamboats, endless chains of automobiles, and even an occasional airplane, are depositing their burdens of human freight.

Every arrangement for the caring of the visitors is being tested to the limit and it appears certain that tomorrow night sleeping accommodations will not be available at any price. It was stated tonight every one of the 25,000 hotel beds and cots had been reserved, while the overflow was being shunted into private rooming places and huge vacant stores and office buildings filled with cots. On the outskirts and in the parks along the lake fronts tents are being erected.

**HOTELS JAMMED.**

The gathering of the vanguard began to make its presence felt early today. At twilight it was almost impossible to move about the corridors of the leading hotels except at a slow wiggling, dodging gait, and the novice rubbed shoulders with sport celebrities from all parts of the continent. It is estimated that between 20,000 and 70,000 visitors will surge into Toledo during the final twenty-four hours.

Both boxers completed their training today, and tomorrow will be a day of relaxation. Dempsey did only three minutes of shadow boxing. After this light workout Dempsey was examined by the official physician of the local boxing board, who pronounced the challenger an exceptional athlete in every respect and ready to engage in the hardest kind of a contest without danger of more than the usual temporary exhaustion following violent exertion.

### The Ship Cafe

"Venice-by-the-Sea"

Beer and Light Wines Will Be Served

Same Orchestra and Snappy Entertainment.

NOTE: The public is privileged to bring their own Liquor of any kind.

Dancing and Dining

**WILLARD WENT THREE THREE-MINUTE ROUNDS WITH BOTH JACK HEMPEL AND WALTER MONAHAN AND WOUND UP WITH AN ADDITIONAL THREE-MINUTE SESSION OF FAST SHADOW BOXING.** While he wore the customary sixteen-ounce gloves, he shook both sparring partners several times with powerful blows. In return Monahan reopened the cut on the champion's lip, bringing a slight flow of blood. Before entering the ring Willard said that he weighed 243½ pounds and Dempsey gave his weight as 194 pounds.

At the close of the training the camp attendants began to dismantle the canvas inclosures and the temporary rings. It was announced that more than 51,000 spectators had paid to see the championship training and that the gross receipts were close to \$15,000.

## TO RACE MOTOR BOATS.

The Newport Harbor Yacht Club will stage a series of speed boat races, inside and outside, on July 4. The fastest motor boats on the Coast are entered. Joe Fellows, Frank Garbutt, driving Mystery IV, Dustin Farnum with his Over-the-Top and Arthur Powell, driving the Rainbow, will race over the twenty-mile outside course for Commodore Wilson's cup at 9 a.m. This will be a scratch race. At 1 p.m. three races of ten miles each will be run, over the inside course, for Vice-Commodore Swales's cup.

At 3 p.m., there will be a ten-mile handicap speed boat race for Rear-Commodore Putnam's cup. Boats will race over the inside course. Other races such as sail boats, canoes, outboard motors, rowing, aquaplane and bang and go back will be held during the day. The night of the fifth, a real sail-

**IS CHIEF OF POLICE SUPERIOR TO COURTS?**

(BY A. P. NIGHT WIRE.)

SEATTLE, July 2.—The city of Seattle will submit the question of the right of Chief of Police J. F. Warren to padlock an alleged L.W.W. hall and keep it closed to the State Supreme Court. This an-

## TENNIS GOES MERRILY ALONG.

**Pacific Coast Doubles Play Shows Fair Work.**

"Maury Mack" Tackles Partner Tom in Singles.

Barker Brothers Win a Stiff Match in Morning.

The first round of the Pacific Coast championship play in men's doubles was run off yesterday afternoon at the Hotel Virginia's courts with a big attendance and showed some very classy playing. The material this year is the best that has been seen for many months. Tomorrow will find the former national winners, Maury McLoughlin and Tom Bundy, going hard after the title again. As the two racket artists have changed courts their chances have improved 1000 per centum, as it has speeded up both men, if such were possible.

The morning's feature was the match between Barker and Barker versus Allen and Corbett. The latter men had the two Barkers with a 4-1 lead in the first set, but by steady playing this advantage was taken away from them. In the third set, the lead was evened up and in the fourth Allen and Corbett took it again, but were finally worsted. The results of the first round and today's schedule follow:

**SCHEDULE OF MATCHES:**

Preceding round: Herd and Hawks won from Brown and Thompson, 6-3, 6-4, 6-4; Barker and Barker won from Allen and Corbett, 6-3, 6-4, 6-4; Barker and Barker won from Allen and Corbett, 6-3, 6-4, 6-4.

**TODAY'S MATCHES:**

9 a.m.: Herd and Hawks vs. Brown and Thompson; Barker and Barker vs. Allen and Corbett.

1 p.m.: Barker and Barker vs. Allen and Corbett; Herd and Hawks vs. Brown and Thompson.

3 p.m.: Barker and Barker vs. Allen and Corbett; Herd and Hawks vs. Brown and Thompson.

5 p.m.: Barker and Barker vs. Allen and Corbett; Herd and Hawks vs. Brown and Thompson.

## MAKING READY FOR BUSINESS.

**Triple Holiday Starts up Big Angling Interest.**

All Branches of the Game Going Strongest Now.

Bear Valley and Ocean Vying for Interest.

Licensed anglers of the south have firmly acquired the "holiday habit" this season, and are planning to make such general use of their triple opportunity over the coming week-end that all the resorts from Catalina to Cottonwood Lake bid fair to play to the biggest sporting interest seen yet this season.

Fishing everywhere is at its very height. Sport in the sea is delighting the host of rosters who spend their annual dollar in pursuit of the marine species legally classed as "game fish." This includes the tuna, albacore, yellowtail, the bluefish, as well as the alongshore gulf species, commonly called "croakers, corbina and yellowfin."

Bear Valley is splendid. Humper beaches are being made everywhere on the moderate tides of this moon's first quarter, which will be passed this week-end. Coastwise what is lighted everybody who cast his net claims therefrom last Sunday, particularly at night. The night fishing has been best, as usual. While fish are not of the largest size, two to four pounders are commonly caught, and those wanting more weight can wrestle with it in form of croakers, choosing the pebbled beaches where the big night tide comes tearing in among the cobbles, with resounding crash, picking out their prize winners amongst the drifting kelp and grass. It is a rough, wild game, but many like it.

Bear Valley angling is firmly on its feet again, and this present moon seems to have started the fish feeding in the way that made the place famous as a place for the licensed angling fraternity. The "rainbows" are big now, fat and fully recovered from their spawning ordeal, which was unusually late, and probably accounts for the dull fishing in early June when usually good.

Golden trout season is open now, and Cottonwood Lake is drawing quite lively attention from anglers anxious to experience the ultimate limits of trout size possibility around the 10,000-foot level where snow and ice is eternal. This is not such an undertaking as formerly, roads up the desert being good and a camp having been established at the lakes.

Stream fishing is holding out well, reports to the Fish and Game Commission agreeing upon low water nearly everywhere, but those satisfied with the "campers' limit," and not insisting on their legal quota, are certain to catch all they can consume upon any of the streams carrying enough water to permit of fishing at present. Sports-

men in this end of the State should no longer expect to drive their cars to limit fishing; there are too many of the licensed angling fraternity over 25,000 of them already cataloged hereabouts—and too few streams to keep up an enormous supply of fish, even with the ever-heavier plantings being progressed by the State authorities each year.

## CRICKET CLUBS TO CLASH ON FOURTH.

The following team had been selected to represent the Sons of St. George Cricket Club against Santa Monica on July 4 at Santa Monica High School grounds. F. Melling, Capt. B. Mann, Vice-captain W. E. Wallace, W. Withy, F. Rogers, W. Arthur, E. St. Clair, R. Beekun, G. Fenby, G. B. Reid, R. Mitchell, R. Moore. The game will commence at 11 a.m. sharp and stumps will be withdrawn at 6 p.m. The Santa Monica team has promised to serve light refreshment, but ask the players bring a basket lunch with them. The Sons of St. George team are to meet at the Oceanview Club, 725 South Olive street at 5 a.m. sharp.

Store Closed Friday and Saturday, July 4 and 5.

THIS is a new-fashioned world, but Murads are the "old-fashioned" tasting Turkish cigarette. 100% pure Turkish tobacco makes them taste that way. That's why thousands and thousands of men demand them.

They gratify your pride and satisfy your taste—and when you take them out of your pocket in any company you have no apologies to make. You know what we mean!

It is true that "ordinary" cigarettes cost a trifle less.

Judge for yourself—!

**NEW YORK STOCK MARKET.**  
[BY A. P. NIGHT WIRE.]

NEW YORK, July 2.—Revelation of  
bullish operations almost without  
parallel since the crest of the June  
wave was witnessed on the Stock  
Exchange today, trading ignoring  
the impending holidays and their  
speculative uncertainties.

The movement was largely if not  
wholly influenced by a pronounced  
easing of money rates, call loans  
falling to 6 per cent, after opening  
at 8 to 9. Time funds also relaxed  
on the better supply, but most loans  
of that character were limited to the  
shorter maturities.

Prices rose one to three points al-  
most at the outset, food, motor, rub-  
ber and equipment shares again set-  
ting the pace, which was extended  
subject to intermittent realizing, to  
the end. In only a few important  
cases were final quotations much  
changed on call.

Old United States bonds were un-  
changed on call.

Outstanding individual features  
embraced Crucible and Sloss-Sheffield  
Steels, Chandler, Studebaker  
and General Motors, Keystone and  
Kelly-Springfield tires, American  
and Baldwin Locomotives, Weing-  
house Electric, American and Lorillard  
tobacco, Tobacco Products and  
United Cigars, at gross gains of two  
to nine points; oils and shipping  
made belated but substantial ad-  
vances under lead of Texas com-  
pany, Mexican Petroleum, Sinclair,  
Royal Dutch, American Interna-  
tional Marine common. Sales  
amounted to 1,500,000 shares.

Bonds were firm on reduced ac-  
tivity. Liberty and International in-  
sures showing slight gains. Total  
sales, par value, aggregated \$3,250,-  
000.

Old United States bonds were un-  
changed on call.

**STOCK QUOTATIONS**

**CAMPER TRADE BY JEALOUSY?**

Attacks Methods of Federal Officials.

Passport Bureau Men Insult, Embarrass.

Security in Mexico Laid to Lack of Firmness.

That certain departments of the federal government, by practices which should not be tolerated by business men, impose the most serious obstacles in the way of an increase of this country's foreign trade was the charge made yesterday by Dr. W. E. Aughinbaugh, head of the department of foreign trade at the New York University, at a luncheon of the Chamber of Commerce and the Jonathan Club. Dr. Aughinbaugh, who is export editor of a New York newspaper, has special-ized in overseas trade for twenty years and has surprised his auditors with statements that the State Department, because of existing jealousy, actually works to checkmate the efforts of the Department of Commerce to promote American trade with foreign countries.

While to some extent our business men and trade bodies are to be blamed for the apparent indifference toward trade, the responsibility for the lukewarm attitude toward overseas trade may be directly charged to the government of the United States, declared the speaker. The State Department, he added, was the most serious obstacle in the way of its work in this field in a tangible manner.

The passport bureau of the State Department, he asserted, seems to feel itself authorized to harass and insult American business men anxious to get abroad and do business.

It is possible to get a passport without a visa to Washington, a liberal amount of tipping to induce employees with whom one is in contact.

Dr. Aughinbaugh condemned the government's policy toward American investors in foreign fields, where he declared the present insecurity of life and property is due to indifference and lack of interest on the part of Federal authorities.

The investment of American money in foreign fields will be small, he asserted, unless the government announces to the world a definite policy for the protection of the American investor.

Dr. Aughinbaugh also condemned the attitude of the Postoffice Department toward business, declaring that the handling of the telegraph system "is outrageous and causes an enormous loss to business."

**SMOTHERS IN SAWDUST PILE.**

Youth Dies Under Flood of Heavy Material Loosed from Hugo Chute.

Caught beneath tons of sawdust when he opened the chute of a huge bin at the Shultz Lumber Company plant early yesterday, H. M. Richmond, 17 years of age, a teamster, was smothered to death before fellow workmen could dig him out.

According to several employees of the Shultz Lumber Company, Mr. Richmond, who was employed by the Scott-Union Sawdust Company, was caught in a torrent of sawdust that swept him off his feet and buried him in the bottom of his wagon.

The body was removed to the Central Avenue Undertaking Company's mortuary and an inquest will be held today.

**FIREBOAT WILL BE GIVEN TRIAL TODAY.**

**NEW FIFTY THOUSAND-DOLLAR CRAFT TO HAVE MAIDEN TRIP AT HARBOR.**

The builders' trial of the Archie J. Eley, the city's new fireboat, will occur this afternoon. Its maiden trip will be made on San Pedro Bay, and it will carry the Fire Commission, members of the City Council, other city officials and private citizens.

The first contract of this long-delayed fireboat was awarded on June 15, 1918. Other contracts have been coming along with astonishing frequency but now the boat is practically complete. The cost to date has been \$58,904.50.

The boat is sixty-four and six-tenths feet in length and seventeen feet wide. It has a draft of seven feet. It is equipped with a 125-horse-power four-cylinder Union gas engine, and is guaranteed to make better than ten miles an hour. It has its own electric generator and three powerful searchlights that can be carried into burning buildings.

There is an electric siren that can be heard all over the bay, and it is also equipped with a whistle and fog bell.

The fireboat was built by the Marine Construction Company, and the contract price for the hull was \$13,968. From time to time additions to the equipment have been made until the total cost has run up to the figures given above.

If the builders' test proves satisfactory, today the boat will be taken over at once by the Fire Commission and put into service. It is proposed to assign sixteen men for this service, with two nine-man shifts.

The City Council yesterday authorized the advertisement for bids for the construction of a bungalow type building on the wharf of the San Pedro Lumber Company for quarters for the firemen. This structure will cost approximately \$4500. For the present space on the wharf is leased by the city, at a rental of \$50 per month, but within two years the ownership of the wharf will revert to the city.

**FOR BEACH CITY DANCERS.** Archie Cooper, deputy sheriff, joined the brother in an application to the Board of Supervisors yesterday for permission to conduct dances in a tent city to be built on the beach near the mouth of Long Canyon. The application was referred to Supervisor McCallan. It is the plan, it is said, to serve refreshments, furnish dancing and accommodations for outing parties.

**END OF HARBOR STRIKE IS CLOSE.**

Company Conferring with Old Committee of Workers.

Progress Announced; Another Parley this Morning.

Councilman Fails in Move to Force Employers' Hand.

Early settlement of the shipyard strike is indicated by the fact that the original committee of seventeen representatives of the shipyard crafts, which existed before the strike was called, is to hold a conference with the Los Angeles Shipbuilding and Dry Dock Company at the harbor, this morning, at 3 o'clock.

This committee has been in existence many months, and it is now meeting with officials of the company as a delegation from the employees. When an attempt was made, several days ago, to settle the dispute between the company and its men, the unions insisted that the conference committee be elected at the Labor Temple, while the company maintained that it should be elected at the shipyard. Apparently deadlocked on this point, the conferees called off their meetings, and since then negotiations have been going on between the company and the old committee of seventeen—each man an authorized representative of one of the shipbuilding crafts.

Fred L. Baker, president of the company, stated last night that excellent progress was being made in conference with the old committee and that the difficulties seem nearer settlement now than at any time during the six weeks the strike has been in progress.

From outside sources it has been learned that the men are heartily sick of being out of employment in these expensive times, and are anxious for an early settlement. Mr. Baker says he is unable to understand why the City Council is attempting to take a hand in the dispute while the company and a committee of employees seem to be making such excellent progress.

An attempt of Councilman Crielwell to stampede the City Council into adopting resolutions presented by him yesterday morning calculated to force the Los Angeles Shipbuilding and Dry Dock Company to concede from the position it has taken in the present strike at the shipyards fell flat. Mr. Crielwell's attitude was so vigorously denounced by other members of the Council that he modified the resolution, striking out the objectionable paragraphs.

As modified, the resolution was adopted. The gist of it, as adopted, was to ask that the company and its employees settle their present controversy and open the plant.

The original resolution, to which vigorous objection was raised by Councilmen Mallard and Conrad, and which Mr. Crielwell finally had to drop, provided "that in case a settlement is not made and the plant opened for production within a week from this date, the City Attorney shall investigate the legal phases and report to this Council on July 10 as to the feasibility of a suit to cancel the lease."

**BOOTERY CLERKS TO GET SATURDAYS OFF.**

In conformance with instructions received from C. H. Wolfelt, who is now in New York City, and out of consideration for the employees of the Bootery, that establishment will be closed Saturdays during July and August.

Mr. Wolfelt says the main obstacle which confronts shoe manufacturers in the East is the scarcity of and the high cost of skilled labor. The advance in the manufacturer's price of shoes has been very heavy.

It is probable that Mr. Wolfelt and Fred White of the Wolfelt Company, who is also in New York City, will return to Los Angeles early this month.

**RAILWAY CHIEFS WILL STAND PAT.**

That the Los Angeles Railway expects to let its employees take the initiative is indicated by the fact that officials of the railway last night declined to comment upon the fact that certain of its men who belong to the Amalgamated Association of Street and Electric Railway Employees are to take a vote at the Labor Temple today to decide whether or not they will strike in an effort to compel the company to grant them the privilege of collective bargaining.

The company remains silent, declaring that it will have nothing to say until the men announce the result of their strike vote. The balloting will start at 9 a.m. and until 10 p.m. The men say they are voting as company employees and that they do not intend to ask for recognition of their union, but believe they should be granted the right to bargain collectively through committees elected by them.

Several days ago G. J. Kuhns, general manager of the company, issued a statement in which he announced that the corporation would not consider the findings of a wage adjustment board. Mr. Kuhns was out of the city yesterday, and it was announced that the company intended to sit tight and let its employees make the first move.

It has been pointed out that the Los Angeles Railway employees cannot expect support from the Pacific Electric Railway company in the form of a sympathetic strike, because the interurban men are still restrained from striking by a government injunction which has been upheld in the United States Circuit Court of Appeals, and which will be in effect so long as men work on government contracts at the harbor.

Some of the telephone men seem to think that telephone workers would rush back to their posts if they thought the Postmaster-General would rule in the telephone strike as he did in the telegraph strike so far as nonemployment of strikers is concerned.

A. E. Cram, president of the Southern California Telephone Company, says there are now 1200 operators on duty at the local switchboards, and that conditions are not far from normal, although many of the new operators are not able as yet to render 100 per cent. service.

He says that in the selection of the new girls the company is exercising the same care which was used before the strike. It is employing only healthy young women of good character. The girls are trained on dummy switchboards at the expense of the company, are allowed annual vacations on full pay, and are permitted to participate in a stock benefit plan, which carries with it pension and death benefits. Increases in pay, he says, are granted in accordance with length of service and opportunities for promotion, especially at this time, are exceptionally good.

**PHONE SETTLEMENT NEAR?**

The fact that several Los Angeles telephone officials were called to San Francisco for a conference yesterday is taken as an indication that an early settlement of the telephone strike may be expected.

Just what effect the collapse of the telegraph strike will have upon the telephone strike in Southern California is a matter of conjecture, officials say, but they point out that Postmaster Burleson, who is blamed for the failure of the key strike, is still in control of the financial end of the telephone systems.

Some of the telephone men seem to think that telephone workers would rush back to their posts if they thought the Postmaster-General would rule in the telephone strike as he did in the telegraph strike so far as nonemployment of strikers is concerned.

A. E. Cram, president of the Southern California Telephone Company, says there are now 1200 operators on duty at the local switchboards, and that conditions are not far from normal, although many of the new operators are not able as yet to render 100 per cent. service.

He says that in the selection of the new girls the company is exercising the same care which was used before the strike. It is employing only healthy young women of good character. The girls are trained on dummy switchboards at the expense of the company, are allowed annual vacations on full pay, and are permitted to participate in a stock benefit plan, which carries with it pension and death benefits. Increases in pay, he says, are granted in accordance with length of service and opportunities for promotion, especially at this time, are exceptionally good.

**TEACHERS, MACHINISTS AND MOLDERS HAVE PREPARED DEMANDS.**

Which their unions have presented to their employers along with ultimatums to the effect that strikes of those trades will be called here on July 15 unless the demands are conceded.

The Teachers' Union includes all delivery wagon drivers, including ice, laundry, milk and groceries, and takes in chauffeurs. They are drawing various scales of pay at present, but the demand is said to be based upon 15 for an eight-hour day, with recognition of the union thrown in for good measure.

The scale of wages demanded by the machinists and molders has not been made public, but it is said to be based upon an eight-hour day and recognition of the union. The patternmakers are included in the ultimatum to the employers.

Employers of teamsters and mechanics held separate conferences yesterday and decided to flatly refuse the demands of the unions in so far as hours and recognition of the union are concerned, but they announced that they would raise the wages of their employees in the various lines as much as possible under existing conditions.

**START REST CAMP FOR SERVICE MEN.**

Ground was broken yesterday at Main and West Adams street, where it is planned to erect fifty tents to be used as a summer rest camp for returned service men. The four-acre plot was christened "Camp Stimson" by Miss Dorothy Phillips. The site was donated by Mrs. Anna Stimson. F. W. Blanchard, Capt. C. A. Phelps and others spoke.

**Fair Warning!**

**TEXAS COLONEL**

Another Texas Chief 1500 Wonderful Acres Going Very Fast \$1.00 Par

1700 yards northwest of the Texas Chief and in line of biggest production. Senator Testerman, who heads the company, expects the biggest well in the Northwest Burnett wonder pool. The capitalization is only \$100,000. This stock should be selling for \$2 right now.

**J. A. D. SMITH**

head of the Silver Cycle Oil Company, received the following message from Wichita Falls today: "Silver Cycle well on sand. Setting casing—drill in as speedily as possible."

We have a few shares of Silver Cycle at \$2, but you will surely have to hurry. Wire at our expense if you want it.

**Southwest Investment Company**  
J. E. LANE, Manager.  
Licensed Broker. Member El Paso Stock Exchange.  
111 1/2 N. Oregon St., El Paso, Texas.  
Phone 2558.

**REALIZE YOUR HOPES OF PROSPERITY BUILT UPON A SOLID FOUNDATION?**

You want to make some money. All of us do. The quickest way is to get a portion of the profits NOW being made in the great Southwestern oil fields.

You have been reading of the fortunes made in oil for a long time—since the Fowler well at Burkburnett came in last July, the wealth being lavished upon the people by nature surpasses by far other oil and mineral booms of other days. Spindletop, Glenn Pool—the gold mines of '49—all of these seem small when compared to the RICHES now being made in oil.

And while you are reading of these RICHES and are deciding that you, too, shall share in the wealth, remember that PROMOTERS are reaping a harvest along with the investors in LEGITIMATE concerns.

You might make a little money in any of the various companies now offering stock for public subscription. NINETY-SEVEN per cent. of the oil companies operating in the new Southwestern fields have proved GOOD buys for their investors, but NINETY-SEVEN per cent. of these companies have not made fortunes for their stockholders. Because to make a fortune from a small investment one must buy in a company with acreage—a company MANAGED BY OIL MEN—a company with sufficient capital to protect their investment—a company with definite, business policies—where all the plans of future operation are carefully planned—planned by EXPERTS in their various branches.

Texas-California Consolidated Oil Company offers investors an opportunity to get in on the ground floor of a GREAT, BIG independent producing company. The men managing the affairs of Texas-California are EXPERIENCED OIL MEN—men who have made a success in the OIL BUSINESS. The company now owns nearly TWO THOUSAND acres of valuable oil land and the company plans to continually acquire additional acreage and production. Texas-California is INCORPORATED—insuring investors against exorbitant promotion fees, which are common with the so-called "trust associations." The company is capitalised for \$300,000, enough to drill dozens of wells in the shallow field of Iowa Park, where they propose to begin operations immediately. Texas-California does not propose to spend their stockholders' money in drilling deep wells which cost from \$25,000 to \$75,000—they are going after oil where THEY KNOW oil can be had, and at a depth of from 500 to 1000 feet and where wells can be drilled for \$5,000 or less.

Texas-California also plan on doing an extensive lease business. Buying leases ahead of production and disposing of them when they are fully proven. An example of the profits to be made in this branch can readily be appreciated when one considers that the leases in the Northwest Burkburnett field, now selling from \$10,000 to \$20,000 an acre, could be bought 12 months ago for \$1.50 an acre.

Texas-California Consolidated Oil Company stock is selling fast—involvement from all over the nation are taking advantage of this unusual opportunity. We want you to be fully understand the plans of the company, but because it is necessary to act quickly we suggest that you fill in the coupon attached to this advertisement and mail today with your check for 10 per cent. of subscription attached. We will hold stock for you and send detailed information. When you are convinced that Texas-California is the investment you have been looking for send the remainder of your subscription. Of course, it will be necessary for you to act within a certain period—so we will allow you 10 days to decide after getting our plans—if by any reason you are unable to pay the balance we will gladly refund your money.

## WOMAN MAULED; HOUSE LOOTED.

Two Robbers Enter Home in  
Guise of "Officers."

Lock Unconscious Mother in  
Closet with Children.

Liberty Bond and War Stamps  
Savings are Stolen.

Wearing badges and representing themselves to be United States immigration officers, two bandits yesterday afternoon entered the home of Mrs. A. C. Prescott, of 214 Agatha street, and after beating her into unconsciousness in the presence of her four small children, thrust her into a closet with the children and then looted the house, stealing \$60 in cash, a \$50 Liberty Bond and a quantity of War Savings Stamps. The robbers then fled in a taxicab, which was standing within a block of the Fujino residence.

Attracted by the screams of the children, Mrs. A. C. Prescott, of 214 Agatha street, notified the police that something was wrong in the Fujino residence, and the Japanese woman and her children were released from the closet by Detective Sergeant Bove and Taylor. At the Receiving Hospital, where Mrs. Fujino was treated, she was found to have deep lacerations of the scalp. She will recover.

According to Mrs. Fujino, the bandits gained entrance to her home by displaying badges and stating they were immigration officers. They demanded to see her passport and also that of her husband, who is a wholesale drygoods merchant. They stated they had information that Fujino had been smuggling in the country.

When Mrs. Fujino left the room, the intruders drew revolvers and thrust the four small children into a closet, and when Mrs. Fujino returned with the passports, they beat her over the head with their revolvers. They then thrust her into the closet and locked the door.

Traced by the State license number, the automobile said to have been used by the bandits was discovered by the police in a taxi company's garage. Investigation showed the cab was driven by J. J. Walker, an employee of the company. He told the police he picked up the two men on West Seventh street, and was directed to drive to the 200 block on Agatha street. The two left the car there and walked to the Fujino residence. After leaving the house, according to Mr. Walker, the men walked back to the automobile and ordered him to drive to Ninth and Wall streets, where they paid the bill and boarded a street car.

Armed with descriptions of the bandits supplied by Mr. Walker, Mrs. Fujino, the police are combing the city for the two men.

THREE-DAY HOLIDAY.  
The Burns shoe stores will close July 4, 5 and 6, in order to give all the employees a three days' holiday.

## PAVED FORD IS THE LATEST.

Board of Public Works Plan  
for Arroyo Crossing Meets  
with Council's Favor.

Something new under the sun, a ford that is paved, is recommended by the Board of Public Works sent by the Council to its Budget Committee, yesterday.

Garvanza, South Pasadena and Pasadena residents have long been urging the improvement of San Pascual avenue and the bridging of the Arroyo Seco on the line thereof. But the price of the last named work is prohibitive at this time, and in lieu thereof City Engineer suggests, and the Board of Public Works has approved, a plan to pave a ford across the arroyo.

The estimated cost of this work is \$100,000, and the pavement will be not less than twenty feet wide, and there will be a small waterway in connection therewith that will care for the residual flow in the arroyo.

## SELL RAIL FRANCHISE.

Two Companies Would Build Spurs  
to Rubber Company's Plant.

A franchise over streets in the northeastern part of the city on the Covina line of the Pacific Electric was sold to that company by the Council, yesterday, for \$100.

The Council received an application from the Santa Fe for a permit to construct a double-track spur across Slauson avenue, easterly of McKinley avenue to serve the Good-year Tire and Rubber Company's plant, which is located at the intersection of Slauson and McKinley.

A similar communication was filed by the Pacific Electric for a permit to cross Central avenue to give service to the new plant. The applications were set for hearing at 10 a. m., August 7, and also referred to the Board of Public Utilities and Board of Public Works for their recommendations. The permit for construction of these spur tracks is desired as soon as possible, so that they may be utilized in hauling material to the site of the new plant, it is stated.

## FORGED MINE LEASE?

Miner is Brought from Nevada to  
Answer Serious Charge.

Charles L. Duggers, a miner, secretly indicted by the county grand jury on June 17 on a charge of forgery, was placed in the County Jail yesterday. He was arrested at Las Vegas, Nev., and brought here for trial by Deputy Sheriff Blaisdel.

It is alleged in the indictment that Duggers forged the name of Charles E. McCarty to a lease for the M. and D. Mining Company's property near Las Vegas, and thus gained control of valuable copper claims.

## NEW TRIAL FOR ALLEGED BRIBER

George Henderson Entitled to  
it, Says Judge Willis.

Scores Karr, Chief Witness for  
State, as Criminal.

Woolwine Calls Decision an  
"Abuse of Discretion."

George Henderson, negro politician, convicted of offering and giving a bribe for supposed police protection, was granted a new trial yesterday by Judge Willis. In a written decision given by the court the evidence and law relating to the case is discussed and the two principal witnesses for the prosecution, George S. Brown, negro gambler and politician, and Horace W. Karr, are scored as confessed criminals who sought to save themselves.

Chief Deputy District Attorney Doran immediately asked and was permitted leave to file a notice of appeal from the judgment of the court. In view of this the court reduced the bail of the defendant from \$10,000 to \$5000. Frank Goings and E. C. Brown, who were on Henderson's bond for \$10,000, immediately qualified for the smaller amount and Henderson was ordered released from jail by Presiding Judge Weller.

In reviewing the case, the court recited a mass of contradictory evidence adduced. It stated that "Brown, a negro gambler, testified that he proposed to give to his co-conspirator, Horace Karr, \$1000 for his personal services in promoting the iniquitous scheme which they plotted, planned and endeavored to foist upon this city."

Regarding Karr the court said, in part: "The testimony of the other conspirator, Horace Karr, is as to its reliability and truthfulness, subject to practically the same objection. He is a self-confessed criminal, who unblushingly testified that he had entered into a conspiracy with negro gamblers, the object of which conspiracy was to defraud city officials, protect the lowest forms of vice; who testified falsely before the grand jury in the preliminary investigation of this case; who states in court, under the sanction of his oath, that he would not hesitate to deceive the grand jury or the trial jury if it was to his interest so to do."

"I quote from the transcript: 'Q: Then, wasn't this testimony made to the grand jury there when they asked you, "What is his business, do you know for the purpose of deceiving them?"

"A: Yes, but I wouldn't lie. There is a discrepancy between deceiving and lying."

"Q: You wouldn't hesitate to deceive the grand jury when you were under oath, then, when it is to your interest to do so?"

"A: I was in jeopardy."

"Q: When you are—you wouldn't hesitate to deceive the grand jury under oath?"

"A: Yes, but I wouldn't lie. There is a discrepancy between deceiving and lying."

"Q: And you wouldn't hesitate to deceive this jury if it was to your interest to do so?"

"A: I wouldn't lie to them; I might attempt to deceive them."

EXONERATES WOOLWINE.  
Regarding alleged misconduct on the part of the District Attorney, the court said, in part:

"I do not attach any particular importance to that part of the motion which alleges misconduct on the part of the District Attorney. It is, if true, not a ground for the granting of the motion for a new trial, and the only place it could have in the argument was that the immunity promised ought to have been followed by the statutory procedure of dismissing the cases pending against the witnesses, in order that they might have been protected from prosecution, and not gone upon the witness stand under a fear of the withdrawal of immunity in case they failed to make good the statements theretofore made by them to the District Attorney. Everyone who knows Mr. Woolwine and Mr. Doran knows that, while fearless and energetic prosecutors, they are learned and honored lawyers, and that the neglect in failing to follow the statutes in regard to dismissal of the cases prior to the witnesses being placed on the stand, was a case of inadvertence of which they would not seek to take advantage."

In summing up the case, the court said that in view of the fact that the entire evidence of the prosecution rests upon the uncorroborated testimony of two accomplices, neither of whom are worthy of any belief or credit, "no jury is forced to conclude that verdict is contrary to the evidence and grant a new trial."

FROM WOOLWINE.  
Regarding the decision, Dist. Atty. Woolwine issued the following statement:

"My judgment the corroboration of the accomplices in the case of People vs. Henderson was conclusive and overwhelming and the ruling of the court in granting a new trial is an abuse of discretion. The higher courts are very reluctant to reverse the ruling of the trial court in a matter thus involving his discretion and the court's decision is, therefore, to my mind a grave misfortune to the public."

BARLEYCORN'S DEATH  
IS DULY RECORDED.

DEMISE CERTIFICATE, ALL  
FILLED OUT, IS FILED WITH  
HEALTH DEPARTMENT.

Here is the official death certificate of Old John Barleycorn, formally filed yesterday at the office of the Los Angeles City Board of Health:

Full name—Old John Barleycorn. Place of death—United States Hospital.

Husband of—Mrs. Hops Beer. Birthplace—Kentucky.

Some wag secured a blank death certificate form, and filling it in as above sent it to Deputy Registrar Henry Bluff of the City Health Department, who has charge of the death certificates in this city.

## CZECHO-SLOVAK FIGHTERS DUE.

Three Thousand of Them to  
Arrive at San Diego from  
Siberia Today.

Immigration Inspector Burnett received official information, yesterday, that the S. S. Nanking, en route from Vladivostok, with 2000 soldiers of the Czech-Slovak forces operating in Siberia, will arrive at San Diego at sunrise today.

Of that number, it is reported, there were 1000 wounded men demanding immediate attention. These will be taken to Camp Kearny, to await transportation to Newport News, Va., whence they will take ship for some European port and for their homes.

Inspector Burnett was authorized to have a sufficient force of men at the wharf today to care for the contingent, and assist in the transit of the soldiers through the United States. It is understood that the wounded men will be immediately placed in the hospital at Camp Kearny, where they will be given every attention.

As a result of the treaty of peace and the provisions of the covenant of nations, the Czech-Slovaks have been recognized as belonging to the family of nations, and it is understood that a number of local Slovaks will go to San Diego today to greet their former countrymen.

"A: No question about that."

"Q: It was, was it?"

"A: Yes."

"Q: And you didn't hesitate, then, to deceive the grand jury when you were under oath, when it is to your interest to do so?"

"A: Yes, but I didn't lie. There is a discrepancy between deceiving and lying."

"Q: You wouldn't hesitate to deceive the grand jury when you were under oath, then, when it is to your interest to do so?"

"A: I was in jeopardy."

"Q: When you are—you wouldn't hesitate to deceive the grand jury under oath?"

"A: Yes, but I wouldn't lie. There is a discrepancy between deceiving and lying."

"Q: And you wouldn't hesitate to deceive this jury if it was to your interest to do so?"

"A: I wouldn't lie to them; I might attempt to deceive them."

Regarding alleged misconduct on the part of the District Attorney, the court said, in part:

"I do not attach any particular importance to that part of the motion which alleges misconduct on the part of the District Attorney. It is, if true, not a ground for the granting of the motion for a new trial, and the only place it could have in the argument was that the immunity promised ought to have been followed by the statutory procedure of dismissing the cases pending against the witnesses, in order that they might have been protected from prosecution, and not gone upon the witness stand under a fear of the withdrawal of immunity in case they failed to make good the statements theretofore made by them to the District Attorney. ## TAKE A REAL HOLIDAY IN

The Great International Pacific Northwest  
OREGON, WASHINGTON and BRITISH COLUMBIA  
The Logical Summer Playground of the People of California

Californians have never intermingled with the people to the north of them as the people of Oregon, Washington and British Columbia have intermingled with the people of California.

Five Hundred and Fifty Thousand Square Miles of country that is all scenery, the most wonderful out of doors, with every form of recreation, including mountain climbing, Golfing, Fishing, Hunting, Bathing, Canoeing, and Motoring on fifteen thousand miles of scenic highways.

By spending your summer vacation in the north this year you will have a great conception of the whole coast. You will form new friendships, new business connections, and have a great appreciation of what the development of this coast means not only to the West, but to the nation at large.

Write for free illustrated booklet to any commercial organization in Oregon, Washington or British Columbia, or to Herbert Cuthbert, Secretary, Pacific Northwest Tourist Association, maintained by government funds to give free information, 1 C. Smith Building, Seattle. Mention this paper.

THE WORLD'S GREATEST OUT OF DOORS

## Don't Poison Baby.

FORTY YEARS AGO almost every mother thought her child must have PAREGORIC or landanum to make it sleep. These drugs will produce sleep, and A FEW DROPS TOO MANY will produce the SLEEP FROM WHICH THERE IS NO WAKING. Many are the children who have been killed or whose health has been ruined for life by paregoric, landanum and morphine, each of which is a narcotic product of opium. Druggists are prohibited from selling either of the narcotics named to children at all, or to anybody without labelling them "poison." The definition of "narcotic" is: "A medicine which relieves pain and produces sleep, but which in poisonous doses produces stupor, coma, convulsions and death." The taste and smell of medicines containing opium are disguised, and sold under the names of "Drops," "Cordials," "Soothing Syrup," etc. You should not permit any medicine to be given to your children without you or your physician know of what it is composed. CASTORIA DOES NOT CONTAIN NARCOTICS, if it bears the signature of Chas. H. Fletcher.

Children Cry For  
**Fletcher's  
CASTORIA**

Mother and Doctor.

Baby's not well. Looks well but cries, and now what's the matter? Pnea? No. Tight band? No. Seem to enjoy his breakfast this morning? Yes. What did the meal consist of? A cup of hot milk and I guess I gave her some of the rolls and bacon I had. Don't guess. If that was her breakfast send out for a bottle of Fletcher's Castoria, and after you give her a dose read carefully what a baby of her age should have for breakfast—you'll find it in the booklet around the bottle.

Too many young mothers are like this mother.

Caution. That's the word that should be hung in every home. Caution, Mothers, must be burned, burned deep in your mind if your little ones are to remain with us.

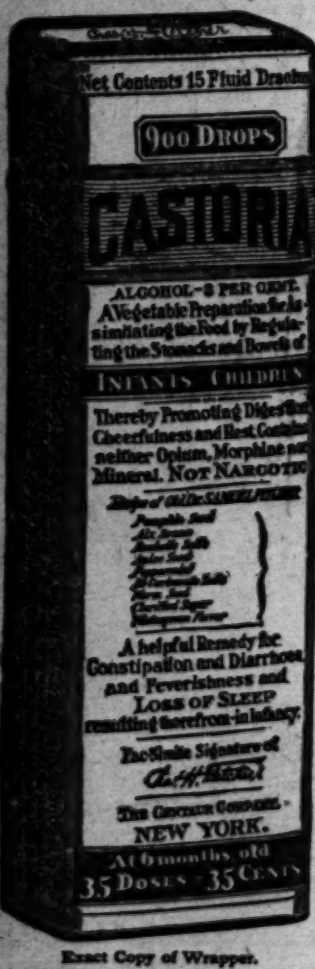

At the first irregularity, at the first flush of fever give Fletcher's Castoria, then call in your physician—he will commend you. You will have done much to aid him.

GENUINE CASTORIA ALWAYS

Bears the Signature of

ULTIMATE  
TO MEXI

President May  
Immediately

Washington Believes  
ful Waiting" at End  
American Policy.

General Demand is to be  
to Protect Our Citizen  
Carranza Territory

BY ARTHUR SEARS HEE  
(EXCLUSIVE DISPATCH.)  
WASHINGTON, July

radical change in the  
administration's policy of  
"waiting" in the Mexican  
situation may be expected im-

mediately the return of President  
next week.

This assurance has been  
by Senator King of U  
Democrat, and one of t  
administration's strongest  
supporters, who has been giv  
closest attention to the M  
situation. The Senator's  
ment was made while disc  
the murder of John W. C  
an American citizen, at  
Tampico June 16, news of  
was suppressed by the Sta  
partment until it was ex  
Tuesday.

Senator King expressed  
the fact that the administra  
make a demand, amounting  
to an ultimatum, on the  
government for guaran  
the protection of American  
and property in Mexico accor  
by a frank notice that unde  
murder and robbery of Am  
cease at once the United Sta  
be compelled to intervene.

There has been a marked  
in the Mexican situation sin  
signing of the peace treaty  
Friday, according to Senat  
to have sent a fair, except  
occupy Mexico and restore  
there before the signing of
